IRVINE, Calif.--(BUSINESS WIRE)--Jul. 30, 2024-- Skyworks Solutions, Inc. (Nasdaq: SWKS), an innovator of high-performance analog and mixed-signal semiconductors connecting people, places and things, today reported third fiscal quarter results for the period ended June 28, 2024.

Revenue for the third fiscal quarter of 2024 was \$906 million. On a GAAP basis, operating income for the third fiscal quarter was \$130 million with diluted earnings per share of \$0.75. On a non-GAAP basis, operating income was \$219 million with non-GAAP diluted earnings per share of \$1.21.

"Skyworks generated solid results and strong profitability consistent with our guidance," said Liam K. Griffin, chairman, chief executive officer and president of Skyworks. "Exiting the June quarter, our mobile business is ramping up while our broad markets business continues to recover. Over the medium-to-long-term, we expect generative AI applications will migrate to the edge, including the smartphone, driving a meaningful replacement cycle and leading to higher levels of RF complexity."

Third Fiscal Quarter Business Highlights

- Secured 5G content for premium Android smartphones including Google Pixel 8a, Samsung Galaxy M, Oppo Reno12 and several others
- Supported the launches of Wi-Fi 7 tri-band routers and access points with NETGEAR, TP-Link and Cambium Networks
- Accelerated our design win pipeline in automotive, including telematics, infotainment and CV2X

Fourth Fiscal Quarter 2024 Outlook

We provide earnings guidance on a non-GAAP basis because certain information necessary to reconcile such guidance to GAAP is difficult to estimate and dependent on future events outside of our control. Please refer to the attached Discussion Regarding the Use of Non-GAAP Financial Measures in this earnings release for a further discussion of our use of non-GAAP measures, including quantification of known expected adjustment items.

"For the September quarter, we expect revenue to be \$1.00 billion to \$1.04 billion with non-GAAP diluted earnings per share of \$1.52 at the mid-point of the revenue range," said Kris Sennesael, senior vice president and chief financial officer of Skyworks. "We expect our mobile business to be up approximately 20% sequentially, as demand and supply patterns appear to be normalizing. In broad markets, we expect modest improvement, representing three consecutive quarters of sequential growth. In addition, given our solid capital structure and strong year-to-date cash flow generation, we are announcing another increase to our quarterly dividend."

Dividend Increase and Payment

Skyworks' board of directors has declared a cash dividend of \$0.70 per share of the Company's common stock, representing a 3% increase from the prior quarterly dividend of \$0.68 per share. The dividend is payable on Sept. 10, 2024, to stockholders of record at the close of business on Aug. 20, 2024.

Safe Harbor Statement

This earnings release includes “forward-looking statements” intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. These forward-looking statements include information relating to future events, prospects, expectations and results of Skyworks (e.g., certain projections and business trends, as well as plans for dividend payments). Forward-looking statements can often be identified by words such as “anticipates,” “expects,” “forecasts,” “intends,” “believes,” “plans,” “may,” “will” or “continue,” and similar expressions and variations or negatives of these words. All such statements are subject to certain risks, uncertainties and other important factors that could cause actual results to differ materially and adversely from those projected and may affect our future operating results, financial position and cash flows.

These risks, uncertainties and other important factors include: the susceptibility of the semiconductor industry and the markets addressed by our, and our customers’, products to economic cycles or changes in economic conditions, including inflation and recession; our reliance on a small number of key customers for a large percentage of our sales; the availability and pricing of third-party semiconductor foundry, assembly and test capacity, raw materials, including rare earth and similar minerals, supplier components, equipment and shipping and logistics services, including limits on our customers’ ability to obtain such services and materials; the risks of doing business internationally, including increased import/export restrictions and controls (e.g., our ability to sell products to certain specified foreign entities only pursuant to a limited export license from the U.S. Department of Commerce or our ability to obtain foreign-sourced raw materials), imposition of trade protection measures (e.g., tariffs or taxes), security and health risks, possible disruptions in transportation networks, fluctuations in foreign currency exchange rates, and other economic, social, military and geopolitical conditions in the countries in which we, our customers or our suppliers operate, including the conflicts in Ukraine and the Middle East; delays in the deployment of commercial 5G networks or in consumer adoption of 5G-enabled devices; the volatility of our stock price; decreased gross margins and loss of market share as a result of increased competition; our ability to obtain design wins from customers; changes in laws, regulations and/or policies that could adversely affect our operations and financial results, the economy and our customers’ demand for our products, or the financial markets and our ability to raise capital; fluctuations in our manufacturing yields due to our complex and specialized manufacturing processes; our ability to develop, manufacture and market innovative products, avoid product obsolescence, reduce costs in a timely manner, transition our products to smaller geometry process technologies and achieve higher levels of design integration; the quality of our products and any defect remediation costs; our products’ ability to perform under stringent operating conditions; reduced flexibility in operating our business as a result of the indebtedness incurred in connection with the transaction with Silicon Laboratories Inc.; our ability to retain, recruit and hire key executives, technical personnel and other employees in the positions and numbers, with the experience and capabilities, and at the compensation levels needed to implement our business and product plans; the timing, rescheduling or cancellation of significant customer orders and our ability, as well as the ability of our customers, to manage inventory; the effects of global health crises on business conditions in our industry, including in the risk of significant disruptions to our business operations, as well as negative impacts to our financial condition; our ability to prevent theft of our intellectual property, disclosure of confidential information or breaches of our information technology systems; uncertainties of litigation, including potential disputes over intellectual property infringement and rights, as well as payments related to the licensing and/or sale of such rights; our ability to continue to grow and maintain an intellectual property portfolio and obtain needed licenses from third parties; our ability to make certain investments and acquisitions, integrate companies we acquire and/or enter into strategic alliances; and other risks and uncertainties, including those detailed from time to time in our filings with the Securities and Exchange Commission.

The forward-looking statements contained in this earnings release are made only as of the date hereof, and we undertake no obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise.
