## **Skyworks Captures Key Cellular Systems Design Win at Arima; Leading Taiwanese ODM to Launch Handsets This Month**

WOBURN, Mass.--(BUSINESS WIRE)--May 11, 2004--Skyworks Solutions, Inc. (Nasdaq:SWKS), the industry's leading wireless semiconductor company focused on radio frequency (RF) and complete cellular system solutions for mobile communications applications, today announced that Arima Communications has selected Skyworks' highly integrated GSM/GPRS cellular system solution as the platform for a number of new wireless handsets that will launch this month in China. Arima, based in Taiwan, is a leading original development manufacturer (ODM) of cellular phones and wireless data modules.

"Working with Skyworks, rather than multiple RF and baseband vendors, has enabled us to deliver a desirable new line of handsets in record time," said Owen Chen, executive vice president at Arima Communications. "We expect to see these new phones quickly gain share within the rapidly growing and competitive Chinese market."

Arima utilizes Skyworks' compact, power-efficient GSM/GPRS cellular system solution to provide all of the necessary hardware and software functionality for handset operation with advanced data and multimedia features. The new handsets will feature GPRS data support, color LCD displays, a built-in digital camera, 40-level polyphonic ring tone melodies, predictive text input, Enhanced and Multimedia Messaging Services (EMS/MMS) software, a WAP browser and advanced gaming.

"We are pleased to take our relationship with Arima to the next level. First as a supplier of power amplifier modules and RF subsystems, to today providing the complete handset solution," said Liam K. Griffin, vice president of sales and marketing at Skyworks. "We look forward to collaborating with Arima on next generation designs as they expand within China and beyond."

### About Skyworks' GSM/GPRS Cellular System Solution

Skyworks pioneered the concept of developing complete semiconductor system solutions for cellular handset applications. This approach simplifies the design process and speeds time to market by providing all major ICs, a full operator-qualified, network-approved GSM/GPRS protocol stack, all necessary development tools and customer support for building a complete Internet-enabled platform.

### About Skyworks

Skyworks Solutions, Inc. is the industry's leading wireless semiconductor company focused on RF and complete cellular system solutions for mobile communications applications. The company provides front-end modules, RF subsystems and cellular systems to handset, WLAN and infrastructure customers.

Skyworks is headquartered in Woburn, Mass., with executive offices in Irvine, Calif. The company has design, engineering, manufacturing, marketing, sales and service facilities throughout North America, Europe, Japan, Korea, Taiwan and India. ### Safe Harbor Statement

This news release includes "forward-looking statements" intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. These forward-looking statements include information relating to future results of Skyworks (including certain projections and business trends). Forward-looking statements can often be identified by words such as "anticipates," "expects," "intends," "believes," "plans," "may," "will," "continue," similar expressions, and variations or negatives of these words. All such statements are subject to certain risks and uncertainties that could cause actual results to differ materially and adversely from those projected, and may affect our future operating results, financial position and cash flows.

These risks and uncertainties include, but are not limited to: global economic and market conditions, such as the cyclical nature of the semiconductor industry and the markets addressed by the company's and its customers' products; demand for and market acceptance of new and existing products; the ability to develop, manufacture and market innovative products in a rapidly changing technological environment; the ability to compete with products and prices in an intensely competitive industry; product obsolescence; losses or curtailments of purchases from key customers or the timing of customer inventory adjustments; the timing of new product introductions; the availability and extent of utilization of raw materials, critical manufacturing equipment and manufacturing capacity; pricing pressures and other competitive factors; changes in product mix;

fluctuations in manufacturing yields; the ability to continue to grow and maintain an intellectual property portfolio and obtain needed licenses from third parties; the ability to attract and retain qualified personnel; labor relations of the company, its customers and suppliers; economic, social and political conditions in the countries in which Skyworks, its customers or its suppliers operate, including health and security risks, possible disruptions in transportation networks and fluctuations in foreign currency exchange rates; and the uncertainties of litigation, as well as other risks and uncertainties, including but not limited to those detailed from time to time in the company's Securities and Exchange Commission filings.

These forward-looking statements are made only as of the date hereof, and the company undertakes no obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise.
