Skyworks Supports Motorola's Q Phone: World's Thinnest and Lightest Handset; EVDO-Compliant Power Amplifiers Leveraged across Motorola's Next-Generation CDMA Phones

WOBURN, Mass.--(BUSINESS WIRE)--June 1, 2006--Skyworks Solutions, Inc. (NASDAQ:SWKS), an industry leader in radio solutions and precision analog semiconductors, today announced that several of its CDMA power amplifiers (PAs) are powering Motorola's revolutionary MOTO Q multimedia handset, which, according to FierceWireless, is 40 percent slimmer than other comparable phones at just over one centimeter thick. The handset is being targeted toward a broad range of consumers - from teenagers to executives, and per Motorola, is expected to enjoy sales similar to those of its popular RAZR model - another Skyworks-powered phone and the best-selling clamshell handset in the world. The Q's long list of features include real-time e-mail, high-speed Internet access, instant messaging, music, bright screen for video, radio, camera, Microsoft Windows Mobile® 5.0 software platform, voice-activated and smart-contacts dialing and speakerphone, along with Bluetooth® and EVDO capabilities.

"Skyworks is delighted to be delivering technology that is enabling Motorola to develop smart, sleek and powerful phones for today's consumers," said Liam K. Griffin, senior vice president, sales and marketing at Skyworks. "Our power amplifiers provide the required functionality, EVDO compliance, and form factor that help Motorola design compelling ultra-thin solutions for both business and entertainment applications."

With its participation in the CDMA RAZR and Q models, Skyworks is supplying Motorola innovative solutions that span all key air interfaces, namely WCDMA, iDEN, TETRA and GPRS low-cost models for emerging markets.

About Skyworks

Skyworks Solutions, Inc. is an industry leader in radio solutions and precision analog semiconductors servicing a diversified set of mobile communications applications. The company's power amplifiers, front-end modules and direct conversion transceivers are at the heart of many of today's leading-edge multimedia handsets, cellular base stations and wireless networking platforms. Skyworks also offers a portfolio of highly innovative linear products, supporting a diverse set of automotive, broadband, industrial and medical customers.

Headquartered in Woburn, Mass., Skyworks is worldwide with engineering, manufacturing, sales and service facilities throughout Asia, Europe and North America. For more information please visit www.skyworksinc.com.

Safe Harbor Statement

This news release includes "forward-looking statements" intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. These forward-looking statements include information relating to future results of Skyworks (including certain projections and business trends). Forward-looking statements can often be identified by words such as "anticipates", "expects", "intends", "believes", "plans", "may", "will", "continue", similar expressions, and variations or negatives of these words. All such statements are subject to certain risks and uncertainties that could cause actual results to differ materially and adversely from those projected, and may affect our future operating results, financial position and cash flows.

These risks and uncertainties include, but are not limited to: global economic and market conditions, such as the cyclical nature of the semiconductor industry and the markets addressed by the company's and its customers' products; demand for and market acceptance of new and existing products; the ability to develop, manufacture and market innovative products in a rapidly changing technological environment; the ability to compete with products and prices in an intensely competitive industry; product obsolescence; losses or curtailments of purchases from key customers or the timing of customer inventory adjustments; the timing of new product introductions; the availability and extent of utilization of raw materials, critical manufacturing equipment and manufacturing capacity; pricing pressures and other competitive factors; changes in product mix; fluctuations in manufacturing yields; the ability to continue to grow and maintain an intellectual property portfolio and obtain needed licenses from third parties; the ability to attract and retain qualified personnel; labor relations of the company, its customers and suppliers; economic, social and political conditions in the countries in which Skyworks, its customers or its suppliers operate, including security and health risks, possible disruptions in transportation networks and fluctuations in foreign currency exchange rates; and the uncertainties of litigation, as well as other risks and uncertainties, including but not limited to

those detailed from time to time in the company's filings with the Securities and Exchange Commission.

These forward-looking statements are made only as of the date hereof, and the company undertakes no obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise.
