Skyworks Captures Clear Power Amplifier Module Leadership in Taiwan; Market Intelligence Center Report Highlights Skyworks Substantial Market Share Gains

WOBURN, Mass., Mar 09, 2005 (BUSINESS WIRE) -- Skyworks Solutions, Inc. (Nasdaq:SWKS), a global leader in analog, mixed signal and digital semiconductors for mobile communications applications, today announced that it has captured 56 percent share of Taiwan's power amplifier (PA) module market, based on research from Market Intelligence Center's "Taiwanese Mobile Phone Key Component Adoption, 4Q 2004" report.

"According to our detailed assessment tracking of all Taiwanese handset suppliers, Skyworks has moved to nearly 60 percent market share, up from 20 percent in 2003," said Market Intelligence Center. "In large part, this is due to the success of their iPAC™ and single-chip DCR™ solutions. Skyworks appears to be well-positioned, as OEMs and ODMs require higher levels of RF and system integration."

"Skyworks is delighted to have third-party validation of our tremendous market share gains," said Kevin D. Barber, senior vice president and general manager of RF Solutions at Skyworks. "Our momentum is being fueled by our unique ability to pair best-in-class PAs with single-chip DCRs among key Taiwanese OEMs and ODMs such as Arima, BenQ, Chi Mei, Compal and Quanta. From this strong leadership position, we are now migrating these customers to our higher value front-end modules, Helios™ RF subsystems, single package radios and complete cellular system solutions for EDGE and WCDMA applications."

Skyworks is a leading supplier of PAs and transceivers worldwide, having shipped more than a half-billion PA modules and over 100 million RF transceivers. The company exited 2004 with nearly 40 percent PA worldwide market share.

About MIC

Market Intelligence Center, based in Taipei, Taiwan, was founded in 1984. MIC is Taiwan's premier IT industry research and consulting firm providing intelligence, in-depth analysis, and strategic consulting services on global IT product and technology trends, focusing on markets and industries in Asia-Pacific. MIC is part of the Institute for Information Industry.

About Skyworks

Skyworks Solutions, Inc. is a global leader in analog, mixed signal and digital semiconductors for mobile communications applications. The company's power amplifiers, front-end modules, direct conversion transceivers and complete system solutions are at the heart of many of today's leading-edge multimedia handsets, cellular base stations and wireless networking platforms. Skyworks also offers a portfolio of highly innovative linear products, supporting a diverse set of automotive, broadband, industrial and medical customers.

Headquartered in Woburn, Massachusetts, Skyworks is worldwide with engineering, manufacturing, sales and service facilities throughout Asia, Europe and North America. For more information, please visit the Skyworks Web site at: www.skyworksinc.com.

Safe Harbor Statement

This news release includes "forward-looking statements" intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. These forward-looking statements include information relating to future results of Skyworks (including certain projections and business trends). Forward-looking statements can often be identified by words such as "anticipates," "expects," "intends," "believes," "plans," "may," "will," "continue," similar expressions, and variations or negatives of these words. All such statements are subject to certain risks and uncertainties that could cause actual results to differ materially and adversely from those projected, and may affect our future operating results, financial position and cash flows.

These risks and uncertainties include, but are not limited to: global economic and market conditions, such as the cyclical nature of the semiconductor industry and the markets addressed by the company's and its customers' products; demand for and market acceptance of new and existing products; the ability to develop, manufacture and market innovative products in a rapidly changing technological environment; the ability to compete with products and prices in an intensely competitive industry; product obsolescence; losses or curtailments of purchases from key customers or the timing of customer inventory adjustments; the timing of new product introductions; the availability and extent of utilization of raw materials, critical

manufacturing equipment and manufacturing capacity; pricing pressures and other competitive factors; changes in product mix; fluctuations in manufacturing yields; the ability to continue to grow and maintain an intellectual property portfolio and obtain needed licenses from third parties; the ability to attract and retain qualified personnel; labor relations of the company, its customers and suppliers; economic, social and political conditions in the countries in which Skyworks, its customers or its suppliers operate, including security and health risks, possible disruptions in transportation networks and fluctuations in foreign currency exchange rates; and the uncertainties of litigation, as well as other risks and uncertainties, including but not limited to those detailed from time to time in the company's filings with the Securities and Exchange Commission.

These forward-looking statements are made only as of the date hereof, and the company undertakes no obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise.
