## **Skyworks Ramps SkyOne™ with Leading Smartphone Manufacturers**

*HTC and Samsung Leveraging Revolutionary Front-end Solution*

WOBURN, Mass.--(BUSINESS WIRE)-- Skyworks Solutions, Inc. (NASDAQ: SWKS), an innovator of high performance analog semiconductors enabling a broad range of end markets, today announced that HTC and Samsung are ramping SkyOne™, a highly customizable, fully optimized front-end solution, in several of their recent smartphone launches. The SkyOne™ platform which integrates all RF and analog content between the transceiver and antenna, reduces complexity, size and time-to-market for customers with demanding architectures for advanced mobile applications.

Utilizing Skyworks' full technology portfolio and advanced multichip module capabilities including proprietary shielding and packaging, SkyOne™ is the world's first semiconductor device to condense multiband power amplifiers and high throw switches along with all associated filtering, duplexing and control functionality into a single, ultra-compact package — all in less than half the area of the industry's most advanced approach. At the same time, this groundbreaking solution provides the world's best linearity and power added efficiency for smart RF integration.

"Skyworks is pleased that HTC, Samsung and other mobile device manufacturers are leveraging the benefits offered by our family of SkyOne™ solutions," said Brad Byk, senior vice president, worldwide sales at Skyworks. "SkyOne™ offers smartphone, tablet and ultrabook OEMs improved size, flexibility, and time to market - - - all in an easy to implement and scalable platform that addresses the dramatic increase in bands worldwide."

### **About HTC's Desire 601**

HTC's Desire 601 offers consumers 4G LTE speeds for extremely fast music and video streaming with HD clarity. It leverages HTC's BoomSound™ with dual frontal stereo speakers for more immersive volume and richer audio, and BlinkFeed™, a feature that automatically refreshes the home screen every time you turn it on. The advanced camera in the Desire 601 features a photo clustering function that unstills pictures for moving images.

### **About Samsung's Galaxy Express 2**

The Galaxy Express 2 is powered by Android 4.2, with a 1.7 GHz dual core processor and 4.5 inch display. The new handset features a number of Samsung's smart functions such as Smart Stay — using advanced facial recognition to detect when the phone is in use, and Group Play — allowing users to share music, documents and photos with compatible Samsung devices. In addition, the device features S Travel, Story Album and S Translator.

### **About the SkyOne™ Platform**

SkyOne™ is a fully-tuned, complete system solution that integrates all the RF and analog content between the transceiver and antenna. The highly-integrated platform delivers best-in-class performance, addresses co-existence issues, and provides customers with the greatest design flexibility to address the increasing number of frequency modes and bands across the world - - - all in the industry's smallest form factor.

### **About Skyworks**

Skyworks Solutions, Inc. is an innovator of high performance analog semiconductors. Leveraging core technologies, Skyworks supports automotive, broadband, cellular infrastructure, energy management, GPS, industrial, medical, military, wireless networking, smartphone and tablet applications. The Company's portfolio includes amplifiers, attenuators, circulators, demodulators, detectors, diodes, directional couplers, front-end modules, hybrids, infrastructure RF subsystems, isolators, lighting and display solutions, mixers, modulators, optocouplers, optoisolators, phase shifters, PLLs/synthesizers/VCOs, power dividers/combiners, power management devices, receivers, switches and technical ceramics.

Headquartered in Woburn, Mass., Skyworks is worldwide with engineering, manufacturing, sales and service facilities throughout Asia, Europe and North America. For more information, please visit Skyworks' Web site at: [www.skyworksinc.com](http://www.skyworksinc.com).

### **Safe Harbor Statement**

This news release includes "forward-looking statements" intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. These forward-looking statements include without limitation information relating to future results and expectations of Skyworks (e.g., certain projections and business trends). Forward-looking statements can often be identified by words such as "anticipates," "expects," "forecasts," "intends," "believes," "plans," "may," "will," or "continue," and similar expressions and variations or negatives of these words. All such statements are subject to certain risks, uncertainties and other important factors that could cause actual results to differ materially and adversely from those projected, and may affect our future operating results, financial position and cash flows.

These risks, uncertainties and other important factors include, but are not limited to: uncertainty regarding global economic and financial market conditions; the susceptibility of the semiconductor industry and the markets addressed by our, and our customers', products to economic downturns; the timing, rescheduling or cancellation of significant customer orders and our ability, as well as the ability of our customers, to manage inventory; losses or curtailments of purchases or payments from key customers, or the timing of customer inventory adjustments; the availability and pricing of third party semiconductor foundry, assembly and test capacity, raw materials and supplier components; changes in laws, regulations and/or policies that could adversely affect either (i) the economy and our customers' demand for our products or (ii) the financial markets and our ability to raise capital; our ability to develop, manufacture and market innovative products in a highly price competitive and rapidly changing technological environment; economic, social, military and geo-political conditions in the countries in which we, our customers or our suppliers operate, including security and health risks, possible disruptions in transportation networks and fluctuations in foreign currency exchange rates; fluctuations in our manufacturing yields due to our complex and specialized manufacturing processes; delays or disruptions in production due to equipment maintenance, repairs and/or upgrades; our reliance on several key customers for a large percentage of our sales; fluctuations in the manufacturing yields of our third party semiconductor foundries and other problems or delays in the fabrication, assembly, testing or delivery of our products; our ability to timely and accurately predict market requirements and evolving industry standards, and to identify opportunities in new markets; uncertainties of litigation, including potential disputes over intellectual property infringement and rights, as well as payments related to the licensing and/or sale of such rights; our ability to rapidly develop new products and avoid product obsolescence; our ability to retain, recruit and hire key executives, technical personnel and other employees in the positions and numbers, with the experience and capabilities, and at the compensation levels needed to implement our business and product plans; lengthy product development cycles that impact the timing of new product introductions; unfavorable changes in product mix; the quality of our products and any remediation costs; shorter than expected product life cycles; problems or delays that we may face in shifting our products to smaller geometry process technologies and in achieving higher levels of design integration; and our ability to continue to grow and maintain an intellectual property portfolio and obtain needed licenses from third parties, as well as other risks and uncertainties, including, but not limited to, those detailed from time to time in our filings with the Securities and Exchange Commission.

The forward-looking statements contained in this news release are made only as of the date hereof, and we undertake no obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise.
