## **Skyworks Ramps SkyOne® Mini for LTE Smartphones**

*Newest Solution Powers Multiple Platforms*

BARCELONA, Spain--(BUSINESS WIRE)-- Skyworks Solutions, Inc. (NASDAQ:SWKS), an innovator of high performance analog semiconductors connecting people, places and things, today announced that its SkyOne® Mini front-end solution is enabling several new smartphone launches. SkyOne® Mini, a derivative of the SkyOne® platform, specifically addresses the growing demand for value and performance oriented solutions in the LTE market by delivering the full functionality of the highly integrated SkyOne® devices but at a reduced cost and size.

"SkyOne® Mini capitalizes on the requirements by OEMs for highly integrated solutions that offer a smaller footprint and lower bill of materials," said Carlos Bori, vice president of marketing for Skyworks. "Our SkyOne® Mini devices support multiple chipsets without the need to change the front-end, creating a simple, flexible approach that delivers significant cost and time to market advantages."

According to a June 2014 Ericsson Mobility Report called "On the Pulse of the Networked Society," LTE is one of the fastest growing segments and is being deployed in all regions of the world. Subscriptions for this technology are predicted to reach 2.6 billion by 2019, representing around 30 percent of total mobile subscriptions.

### **About Skyworks SkyOne® Mini Solutions**

[SKY78070](#), [SKY78071](#) and [SKY78072](#) - hybrid, multimode multiband front-end modules that support 2.5G and 3G/4G handsets and operate efficiently in GSM, GPRS, EDGE, TD-SCDMA, WCDMA, HSPA and LTE modes.

The SKY78070 contains four integrated duplexers for Bands 1, 2, 5 and 8 plus an SP16T switch for non-carrier aggregation applications. The SKY78071 contains five integrated duplexers for Bands 1, 2, 4, 5 and 8 plus a DP18T switch for high/low and medium/low carrier aggregation applications. The SKY78072 contains four integrated duplexers for Bands 1, 2, 5 and 8 plus a DP18T switch for high/low and medium/low carrier aggregation applications.

### **Pricing and Availability**

The family of SkyOne® Mini solutions is currently available for sampling and production. For additional product information, please contact [sales@skyworksinc.com](mailto:sales@skyworksinc.com).

### **Skyworks at Mobile World Congress**

Skyworks will be showcasing its product portfolio in Hall 6, Booth C41 (6C41) at Mobile World Congress being held March 2 - 5.

### **About Skyworks**

Skyworks Solutions, Inc. is empowering the wireless networking revolution. Our highly innovative analog semiconductors are connecting people, places and things spanning a number of new and previously unimagined applications within the automotive, broadband, cellular infrastructure, connected home, industrial, medical, military, smartphone, tablet and wearable markets.

Headquartered in Woburn, Massachusetts, Skyworks is a global company with engineering, marketing, operations, sales, and service facilities located throughout Asia, Europe and North America. For more information, please visit Skyworks' website at: [www.skyworksinc.com](http://www.skyworksinc.com).

### **Safe Harbor Statement**

This news release includes "forward-looking statements" intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. These forward-looking statements include without limitation information relating to future results and expectations of Skyworks (e.g., certain projections and business trends). Forward-looking statements can often be identified by words such as "anticipates," "expects," "forecasts," "intends," "believes," "plans," "may," "will," or "continue," and similar expressions and variations or negatives of these words. All such statements are subject to certain risks, uncertainties and other important factors that could cause actual results to differ materially and adversely from those projected,

and may affect our future operating results, financial position and cash flows.

These risks, uncertainties and other important factors include, but are not limited to: uncertainty regarding global economic and financial market conditions; the susceptibility of the semiconductor industry and the markets addressed by our, and our customers', products to economic downturns; the timing, rescheduling or cancellation of significant customer orders and our ability, as well as the ability of our customers, to manage inventory; losses or curtailments of purchases or payments from key customers, or the timing of customer inventory adjustments; the availability and pricing of third-party semiconductor foundry, assembly and test capacity, raw materials and supplier components; changes in laws, regulations and/or policies that could adversely affect either (i) the economy and our customers' demand for our products or (ii) the financial markets and our ability to raise capital; our ability to develop, manufacture and market innovative products in a highly price competitive and rapidly changing technological environment; economic, social, military and geo-political conditions in the countries in which we, our customers or our suppliers operate, including security and health risks, possible disruptions in transportation networks and fluctuations in foreign currency exchange rates; fluctuations in our manufacturing yields due to our complex and specialized manufacturing processes; delays or disruptions in production due to equipment maintenance, repairs and/or upgrades; our reliance on several key customers for a large percentage of our sales; fluctuations in the manufacturing yields of our third-party semiconductor foundries and other problems or delays in the fabrication, assembly, testing or delivery of our products; our ability to timely and accurately predict market requirements and evolving industry standards, and to identify opportunities in new markets; uncertainties of litigation, including potential disputes over intellectual property infringement and rights, as well as payments related to the licensing and/or sale of such rights; our ability to rapidly develop new products and avoid product obsolescence; our ability to retain, recruit and hire key executives, technical personnel and other employees in the positions and numbers, with the experience and capabilities, and at the compensation levels needed to implement our business and product plans; lengthy product development cycles that impact the timing of new product introductions; unfavorable changes in product mix; the quality of our products and any remediation costs; shorter-than-expected product life cycles; problems or delays that we may face in shifting our products to smaller geometry process technologies and in achieving higher levels of design integration; and our ability to continue to grow and maintain an intellectual property portfolio and obtain needed licenses from third parties, as well as other risks and uncertainties, including, but not limited to, those detailed from time to time in our filings with the Securities and Exchange Commission.

The forward-looking statements contained in this news release are made only as of the date hereof, and we undertake no obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise.
