SKYWORKS SOLUTIONS, INC.

NOTES TO UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

1. DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

Skyworks Solutions, Inc. (“Skyworks” or the “Company”) designs, manufactures and markets a broad range of high performance analog and mixed signal semiconductors that enable wireless connectivity. Our power amplifiers (PAs), front-end modules (FEMs) and integrated radio frequency (RF) solutions can be found in many of the cellular handsets sold by the world’s leading manufacturers. Leveraging our core analog technologies, we also offer a diverse portfolio of linear integrated circuits (ICs) that support automotive, broadband, cellular infrastructure, industrial and medical applications.

The accompanying unaudited consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”). Certain information and footnote disclosures, normally included in annual consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America, have been condensed or omitted pursuant to those rules and regulations. However, in the opinion of management, the financial information reflects all adjustments, consisting of adjustments of a normal recurring nature necessary to present fairly the financial position, results of operations, and cash flows of the Company. The results of operations for the three and nine-month periods ended June 27, 2008 are not necessarily indicative of the results to be expected for the full year. This information should be read in conjunction with the Company’s financial statements and notes thereto contained in the Company’s Form 10-K for the fiscal year ended September 28, 2007 as filed with the SEC.

The Company’s fiscal year ends on the Friday closest to September 30. Fiscal 2007 consisted of 52 weeks and ended on September 28, 2007, and the third quarters of fiscal 2008 and fiscal 2007 each consisted of 13 weeks and ended on June 27, 2008 and June 29, 2007, respectively. Fiscal 2008 will consist of 53 weeks and end on October 3, 2008, with the first three quarters of fiscal 2008 consisting of 13 weeks, and the fourth quarter of fiscal 2008 consisting of 14 weeks.

2. BUSINESS COMBINATIONS

In October 2007, the Company paid \$32.6 million in cash to acquire certain assets from two separate companies. The Company acquired raw materials, die bank, finished goods, proprietary GaAs PA/FEM designs and related intellectual property in a business combination from Freescale Semiconductor. We also acquired sixteen fundamental HBT and RF MEMs patents in an asset acquisition from another company. The purchase accounting on these acquisitions was finalized in March 2008.

The purchase prices as of October 23, 2007 were allocated based upon the fair value of the tangible and intangible assets acquired to allocate the purchase prices in accordance with Statement of Financial Accounting Standards (“SFAS”) 141, *Business Combinations*. Based upon those calculations, the Company has definitively concluded that customer relationships have a fair value of \$8.5 million, order backlog has a fair value of \$1.6 million, developed technology has a fair value of \$1.3 million, the Master Foundry Services agreement has a fair value of \$0.9 million, patents have a fair value of \$0.9 million, inventories have a fair value of \$5.6 million and the remaining purchase price of \$13.8 million is allocated to goodwill. The intangible assets will be amortized over periods ranging from .5 years to 5 years.

The Company’s primary reasons for the above acquisitions were to expand its market share in power amplifiers and front end modules at certain existing customers, and increase the probability of future design wins with these customers. The significant factors that resulted in recognition of goodwill in one of the transactions were: (a) the purchase price was based on cash flow projections assuming the sale of the acquired inventory and the sale of the Company’s next generation product (a derivative of the acquired inventory); and (b) there were very few tangible and identifiable intangible assets that qualified for recognition.

SKYWORKS SOLUTIONS, INC.

NOTES TO UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS — Continued

The Consolidated Financial Statements include the operating results of the acquired business from the date of acquisition. Pro forma results of operations for these acquisitions completed during the nine-month period ended June 27, 2008 have not been presented because the effects of the acquisitions were not material to the Company's financial results.

3. AVAILABLE FOR SALE SECURITIES

The Company accounts for its investment in debt and equity securities in accordance with SFAS No. 115, *Accounting for Certain Investments in Debt and Equity Securities*, and classifies them as "available for sale". These securities consist of \$3.2 million in amortized cost of auction rate securities ("ARS"), which are long-term debt instruments which provide liquidity through a Dutch auction process that resets interest rates each month. The recent uncertainties in the credit markets have disrupted the liquidity of this process resulting in failed auctions.

In the three and nine-month periods ended June 27, 2008, the carrying value of these securities was reduced by \$0.0 million and \$1.5 million, respectively, reflecting a change in fair value. The Company assessed these declines in fair value to be temporary and recorded this reduction in shareholders' equity in accumulated other comprehensive loss. The Company will continue to closely monitor these ARS and evaluate the appropriate accounting treatment in each reporting period. The Company holds no other auction rate securities.

ARS were classified in prior periods as current assets under "Short-term Investments". Given the failed auctions, the Company's ARS are considered to be illiquid until there is a successful auction. Accordingly, the remaining ARS balance has been reclassified to non-current other assets.

4. INVENTORIES

Inventories consist of the following (in thousands):

	June 27, 2008	September 28, 2007
Raw materials	\$ 7,570	\$ 6,624
Work-in-process	58,907	48,128
Finished goods	29,642	27,357
	<u>\$ 96,119</u>	<u>\$ 82,109</u>

5. PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment consist of the following (in thousands):

	June 27, 2008	September 28, 2007
Land	\$ 9,423	\$ 9,423
Land and leasehold improvements	4,453	4,394

Total intangible assets		\$ 39,878	\$ (18,721)	\$ 21,157	\$ 26,641	\$ (13,199)	\$ 13,442

Amortization expense related to intangible assets are as follows (in thousands):

	Three-months Ended		Nine-months Ended	
	June 27, 2008	June 29, 2007	June 27, 2008	June 29, 2007
Amortization expense	\$1,411	\$536	\$5,522	\$1,608

The changes in the gross carrying amount of goodwill and intangible assets are as follows (in thousands):

	Goodwill and Intangible Assets					
	Goodwill	Developed Technology	Customer Relationships	Trademarks	Patents and Other	Total
Balance as of September 28, 2007	\$ 480,890	\$ 10,550	\$ 12,700	\$ 3,269	\$ 122	\$ 507,531
Additions during period	13,779	1,300	8,510	—	3,427	27,016
Deductions during period	(4,708)	—	—	—	—	(4,708)
Balance as of June 27, 2008	\$ 489,961	\$ 11,850	\$ 21,210	\$ 3,269	\$ 3,549	\$ 529,839

In October 2007, the Company paid \$32.6 million in cash to acquire certain assets from two separate companies resulting in the allocation of approximately \$13.8 million to goodwill. For additional information regarding these acquisitions see Note 2, Business Combinations.

Goodwill was reduced by \$4.7 million in the nine-month period ended June 27, 2008 as a result of the realization of deferred tax assets. The benefit from the recognition of a portion of these deferred items reduces the carrying value of goodwill instead of reducing income tax expense. Accordingly, future realization of certain deferred tax assets will reduce the carrying value of goodwill. The remaining deferred tax assets that could reduce goodwill in future periods are \$13.9 million as of June 27, 2008.

Annual amortization expense related to intangible assets for the next five years is expected to be as follows (in thousands):

	2008	2009	2010	2011	2012
Amortization expense	\$6,933	\$4,406	\$4,406	\$4,106	\$3,560

SKYWORKS SOLUTIONS, INC.

NOTES TO UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS — Continued

7. BORROWING ARRANGEMENTS

Long-Term Debt

Long-term debt consists of the following (in thousands):

	June 27, 2008	September 28, 2007
Junior Notes	\$ —	\$ 49,335
2007 Convertible Notes	200,000	200,000
Long-term debt	\$ 200,000	\$ 249,335
Less-current maturities	—	49,335
	<u>\$ 200,000</u>	<u>\$ 200,000</u>

On March 2, 2007, the Company issued \$200.0 million aggregate principal amount of convertible subordinated notes (“2007 Convertible Notes”). The offering contained two tranches. The first tranche consisted of \$100.0 million of 1.25% convertible subordinated notes due March 2010. The second tranche consisted of \$100.0 million of 1.50% convertible subordinated notes due March 2012. The conversion price of the 2007 Convertible Notes is 105.0696 shares per \$1,000 principal amount of notes to be redeemed, which is the equivalent of a conversion price of approximately \$9.52 per share, plus accrued and unpaid interest, if any, to the conversion date. Holders may require the Company to repurchase the 2007 Convertible Notes upon a change in control of the Company. The Company pays interest in cash semi-annually in arrears on March 1 and September 1 of each year. It has been the Company’s historical practice to cash settle the principal and interest components of convertible debt instruments, and it is our intention to continue to do so in the future, including settlement of the 2007 Convertible Notes.

On December 21, 2006, the Financial Accounting Standards Board (“FASB”) issued FASB Staff Position Emerging Issues Task Force 00-19-2 (“FSP EITF 00-19-2”). FSP EITF 00-19-2 specifies that the contingent obligation to make future payments, or otherwise transfer consideration under a registration payment arrangement, should be separately recognized and measured in accordance with FASB Statement No. 5, *Accounting for Contingencies* (“FASB 5”). The Company adopted FSP EITF 00-19-2 on September 29, 2007. The Company agreed to file a shelf registration statement under the Securities Act of 1933 (the “Securities Act”) not later than 120 days after the first date of original issuance of the 2007 Convertible Notes. The Company agreed to utilize commercially reasonable efforts to have this shelf registration statement declared effective not later than 180 days after the first date of original issuance of the notes, and to keep it effective until the earliest of: 1) two years from the effective date of the shelf registration statement; 2) the date when all registrable securities have been registered under the Securities Act and disposed of; and 3) the date on which all registrable securities held by non-affiliates are eligible to be sold to the public pursuant to Rule 144(k) under the Securities Act. The Company filed the shelf registration statement within 120 days of the original issuance of the 2007 Convertible Notes and the shelf registration statement was declared effective within 180 days after the first date of original issuance of the notes. If the shelf registration statement ceases to be effective within two years from the effective date of the shelf registration statement the Company will be obligated to pay an additional 0.25% interest per annum for the first 90 days after the occurrence of the registration default and at the rate of 0.50% per annum thereafter. The Company has concluded that it is not probable that a contingent liability has been incurred at June 27, 2008 pursuant to the application of FASB 5 and thus has not recorded a liability.

Junior Notes represent the Company’s 4.75% convertible subordinated notes due November 2007. During the three-month period ended December 28, 2007, the Company retired the entire \$49.3 million in aggregate principal amount of the Junior Notes at a price of \$1,000 per \$1,000 principal amount of notes plus \$1.2 million in accrued and unpaid interest.

SKYWORKS SOLUTIONS, INC.

NOTES TO UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS — Continued

Short-Term Debt

Short-term debt consists of the following (in thousands):

	June 27, 2008	September 28, 2007
Junior Notes	\$ —	\$ 49,335
Facility Agreement	50,000	50,000
	<u>\$ 50,000</u>	<u>\$ 99,335</u>

On July 15, 2003, the Company entered into a receivables purchase agreement under which it has agreed to sell from time to time certain of its accounts receivable to Skyworks USA, Inc. ("Skyworks USA"), a wholly-owned special purpose entity that is consolidated for accounting purposes. Concurrently, Skyworks USA entered into an agreement with Wachovia Bank, N.A. providing for a \$50.0 million credit facility ("Facility Agreement") secured by the purchased accounts receivable. As a part of the consolidation, any interest incurred by Skyworks USA related to monies it borrows under the Facility Agreement is recorded as interest expense in the Company's results of operations. The Company performs collections and administrative functions on behalf of Skyworks USA. The Company renewed the Facility Agreement on July 11, 2008 for a one year term. Interest related to the Facility Agreement is at LIBOR plus 0.75%. As of June 27, 2008, Skyworks USA had borrowed \$50.0 million under this agreement.

8. INCOME TAXES

We recorded tax provisions of \$1.7 million and \$5.5 million for the three and nine-month periods ended June 27, 2008 and \$1.2 million and \$2.6 million for the three and nine-month periods ended June 29, 2007. Our effective tax rates were 7.8% and 9.0% for the three and nine-month periods ended June 27, 2008 and 9.5% and 6.7% for the three and nine-month periods ended June 29, 2007. The difference between our effective tax rates and the 35% federal statutory rate resulted primarily from a tax benefit related to a reduction in the federal and state deferred tax asset valuation allowance on the deferred tax assets utilized during the period and foreign earnings taxed at rates lower than the federal statutory rate.

As noted in our most recent Annual Report on Form 10-K, no benefit has been recognized in the Statement of Operations for certain pre-Merger deferred tax assets. The benefit from the recognition of these deferred items reduces the carrying value of goodwill instead of reducing income tax expense. We will evaluate the realization of the pre-Merger deferred tax assets on a quarterly basis and adjust the provision for income taxes accordingly. As a result, the effective tax rate may vary in subsequent quarters.

We utilize the asset and liability method of accounting for income taxes as set forth in SFAS No. 109, *Accounting for Income Taxes*, or ("SFAS 109"). Under the asset and liability method, deferred taxes are determined based on the temporary differences between the financial statement and tax basis of assets and liabilities using tax rates expected to be in effect during the years in which the basis differences reverse. A valuation allowance is recorded when it is more likely than not that some of the deferred tax assets will not be realized.

In July 2006, the FASB issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109" ("FIN 48"). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with SFAS 109. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This statement also provides guidance on derecognition, classification, interest and penalties, accounting in the interim periods, disclosure, and transition. The Company adopted FIN 48 on September 29, 2007, and the provisions of FIN 48 will be applied to all income tax provisions commencing from that date.

During the quarter ended June 27, 2008, the statute of limitations period expired relating to an unrecognized tax benefit. The expiration of the statute of limitations period resulted in the recognition of \$0.6 million of previously unrecognized tax benefit, which impacted the effective tax rate as a discrete item during the quarter. In addition,

SKYWORKS SOLUTIONS, INC.

NOTES TO UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS — Continued

\$0.5 million of accrued interest related to this tax position was reversed during the quarter, resulting in a total year-to-date benefit for accrued interest of \$0.4 million.

Of the total unrecognized tax benefits at June 27, 2008, none would impact the effective tax rate, if recognized. There are no positions which we anticipate could change within the next twelve months.

On October 1, 2007, Mexico enacted a new “flat tax” regime which became effective January 1, 2008. SFAS 109 prescribes that the effect of the new tax on deferred taxes must be included in tax expense in the period that includes the enactment date. The effect of recording deferred taxes in the first fiscal quarter of 2008 to the foreign tax provision (benefit) was (\$0.2) million. In addition to the deferred taxes, the Company has accrued flat tax for the three and nine-month periods ended June 27, 2008 of \$0.1 million and \$0.2 million, respectively.

9. COMMITMENTS AND CONTINGENCIES

Legal Matters

From time to time, various lawsuits, claims and proceedings have been, and may in the future be, instituted or asserted against the Company, including those pertaining to patent infringement, intellectual property, environmental, product liability, safety and health, employment and contractual matters.

Additionally, the semiconductor industry is characterized by vigorous protection and pursuit of intellectual property rights. From time to time, third parties have asserted and may in the future assert patent, copyright, trademark and other intellectual property rights to technologies that are important to our business and have demanded and may in the future demand that we license their technology. The outcome of litigation cannot be predicted with certainty and some lawsuits, claims or proceedings may be disposed of unfavorably to the Company. Intellectual property disputes often have a risk of injunctive relief, which, if imposed against the Company, could materially and adversely affect the Company’s financial condition, or results of operations.

From time to time we are involved in legal proceedings in the ordinary course of business. We believe that there is no such ordinary course litigation pending that will have, individually or in the aggregate, a material adverse effect on our business.

Guarantees and Indemnifications

The Company has no guarantees. The Company generally indemnifies its customers from third-party intellectual property infringement litigation claims related to its products, and, on occasion, also provides other indemnities related to product sales. In connection with certain facility leases, the Company has indemnified its lessors for certain claims arising from the facility or the lease.

The Company indemnifies its directors and officers to the maximum extent permitted under the laws of the state of Delaware. The duration of the indemnities varies, and in many cases is indefinite. The indemnities to customers in connection with product sales generally are subject to limits based upon the amount of the related product sales and in many cases are subject to geographic and other restrictions. In certain instances, the Company’s indemnities do not provide for any limitation of the maximum potential future payments the Company could be obligated to make. The Company has not recorded any liability for these indemnities in the accompanying consolidated balance sheets.

SKYWORKS SOLUTIONS, INC.

NOTES TO UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS — Continued

10. RESTRUCTURING AND SPECIAL CHARGES

Restructuring and special charges consists of the following (in thousands):

	Three-months Ended		Nine-months Ended	
	June 27, 2008	June 29, 2007	June 27, 2008	June 29, 2007
Restructuring and special charges	\$ —	\$ 257	\$ —	\$ 5,730
	<u>\$ —</u>	<u>\$ 257</u>	<u>\$ —</u>	<u>\$ 5,730</u>

Restructuring and special charges consist of charges for asset impairments and restructuring activities, as follows:

On September 29, 2006, the Company implemented a plan to exit its baseband product area in order to focus on its core products encompassing linear products, power amplifiers, front-end modules and radio solutions. The Company recorded various charges associated with this action.

The Company recorded additional restructuring charges of \$4.9 million related to the exit of the baseband product area during the nine-month period ended June 29, 2007. These charges consist of \$4.5 million relating to the exit of certain operating leases, \$0.5 million relating to additional severance, \$1.4 million related to the write-off of technology licenses and design software, offset by a \$1.5 million credit related to the reversal of a reserve originally recorded to account for an engineering vendor charge associated with the exit of the baseband product area.

Activity and liability balances related to the fiscal 2006 restructuring actions are as follows (in thousands):

	Facility Closings	License and Software Write-offs	Workforce Reductions	Asset Impairments	Total
Charged to costs and expenses	\$ 105	\$ 9,583	\$ 13,070	\$ 4,197	\$ 26,955
Non-cash items	—	(6,426)	—	(4,197)	(10,623)
Restructuring balance, September 29, 2006	\$ 105	\$ 3,157	\$ 13,070	\$ —	\$ 16,332
Charged to costs and expenses	4,483	(83)	530	—	4,930
Reclassification of reserves	(128)	(508)	636	—	—
Non-cash items	—	(419)	—	—	(419)
Cash payments	(1,690)	(1,847)	(13,242)	—	(16,779)
Restructuring balance, September 28, 2007	\$ 2,770	\$ 300	\$ 994	\$ —	\$ 4,064
Reclassification of reserves	84	(75)	75	—	84
Cash payments	(1,258)	(225)	(721)	—	(2,204)
Restructuring balance, June 27, 2008	<u>\$ 1,596</u>	<u>\$ —</u>	<u>\$ 348</u>	<u>\$ —</u>	<u>\$ 1,944</u>

The Company anticipates that most of the remaining payments associated with the exit of the baseband product area will be remitted during fiscal years 2008 and 2009.

11. SEGMENT INFORMATION

In accordance with SFAS No. 131, *Disclosures about Segments of an Enterprise and Related Information* (“SFAS 131”), the Company has one reportable operating segment which designs, develops, manufactures and markets proprietary semiconductor products, including intellectual property, for manufacturers of wireless communication products. SFAS 131 establishes standards for the way public business enterprises report information about operating segments in annual financial statements and in interim reports to shareholders. The method for determining what information to report is based on management’s organization of segments within the Company for making operating decisions and assessing financial performance. In evaluating financial performance, management uses sales and operating profit as the measure of the segments’ profit or loss. All of the Company’s operating segments share similar economic characteristics as they have a similar long term business model, and have similar research and development expenses and similar selling, general and administrative expenses, thus, the Company has concluded at June 27, 2008 that it has only one reportable operating segment. The Company will re-assess its conclusions at least annually.

SKYWORKS SOLUTIONS, INC.

12. EMPLOYEE STOCK BENEFIT PLANS

Net income for the three-month period ended June 27, 2008 and June 29, 2007 included share-based compensation expense under SFAS No. 123(R) (revised 2004), Share-Based Payment (“SFAS 123(R)”) of \$6.1 million and \$3.6 million, respectively. Net income for the nine-month period ended June 27, 2008 and June 29, 2007 included share-based compensation expense under SFAS 123(R) of \$16.8 million and \$9.7 million, respectively.

The following table summarizes share-based compensation expense related to employee stock options, employee stock purchases, performance stock grants, and restricted stock grants under SFAS 123(R) for the three and nine-month periods ended June 27, 2008 and June 29, 2007 which were allocated as follows:

(In thousands)	Three-months Ended		Nine-months Ended	
	June 27, 2008	June 29, 2007	June 27, 2008	June 29, 2007
Stock Options	\$ 3,052	\$ 2,320	\$ 8,099	\$ 5,404
Non-vested restricted stock with service and market conditions	761	460	3,129	2,046
Non-vested restricted stock with service conditions	270	238	798	761
Performance shares	838	300	2,653	500
Employee Stock Purchase Plan	380	327	1,174	1,005
Incremental Bonus	811	—	811	—
Other	—	—	98	—
	<u>\$ 6,112</u>	<u>\$ 3,645</u>	<u>\$ 16,762</u>	<u>\$ 9,716</u>

The Compensation Committee of the Company’s Board of Directors recommended the modification of certain of the terms of options to purchase the Company’s common stock held by Board of Directors Chairman Dwight Decker effective upon his retirement from the Board of Directors on March 27, 2008. The Board of Directors voted on and accepted this recommendation in January 2008. The modification impacted stock options granted 24 months or prior to Mr. Decker’s retirement and those stock options scheduled to vest within 12 months following his retirement date. Specifically, the vesting of 18,750 of Mr. Decker’s outstanding stock options was accelerated such that they are now exercisable. In addition, the exercise period of 107,250 of Mr. Decker’s stock options (including the 18,750 accelerated options discussed above) was extended so that, instead of expiring on June 25, 2008, such options would continue to be exercisable for a period of two years from his retirement date. The modification of the 107,250 above-referenced options resulted in the Company incurring a non-cash credit of approximately \$0.1 million since the Company had previously recognized expense on these awards.

Share-based compensation for the three and nine-month periods ended June 27, 2008 includes approximately \$0.8 million related to the anticipated payout of the portion of management incentive compensation that exceeds target metrics in unrestricted common stock. The common stock awards, if earned under the management incentive program, relate to the second half of fiscal year 2008 and would be issued in November 2008. The Company anticipates an immaterial amount of share dilution as a result of this arrangement.

The following table summarizes share-based compensation expense related to employee stock options, employee stock purchases, performance stock grants, and restricted stock grants under SFAS 123(R) for the three and nine-month periods ended June 27, 2008 and June 29, 2007 which was allocated as follows:

(In thousands)	Three-months Ended		Nine-months Ended	
	June 27, 2008	June 29, 2007	June 27, 2008	June 29, 2007
Cost of sales	651	475	2,162	876
Research and development	2,436	1,545	6,202	3,653
Selling, general and administrative	3,025	1,625	8,398	5,187
Share-based compensation expense included in operating expenses	<u>\$ 6,112</u>	<u>\$ 3,645</u>	<u>\$ 16,762</u>	<u>\$ 9,716</u>

SKYWORKS SOLUTIONS, INC.

NOTES TO UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS — Continued

The Company utilized the following weighted average assumptions in calculating its share-based compensation expense using the Black Scholes model at June 27, 2008 and June 29, 2007:

	Three and Nine-months Ended June 27, 2008	June 29, 2007
Expected volatility	51.56%	57.32%
Risk free interest rate (7 year contractual life options)	3.95%	5.11%
Risk free interest rate (10 year contractual life options)	4.27%	5.11%
Dividend yield	0.00	0.00
Expected option life (7 year contractual life options)	4.42	4.57
Expected option life (10 year contractual life options)	5.80	5.86

13. EARNINGS PER SHARE

(In thousands, except per share amounts)	Three-months Ended		Nine-months Ended	
	June 27, 2008	June 29, 2007	June 27, 2008	June 29, 2007
Net income	\$ 20,466	\$ 11,423	\$ 56,217	\$ 35,657
Weighted average shares outstanding — basic	162,095	158,606	161,166	160,159
Effect of dilutive stock options	2,554	1,426	2,157	1,119
Weighted average shares outstanding — diluted	164,649	160,032	163,323	161,278
Net income per share — basic	\$ 0.13	\$ 0.07	\$ 0.35	\$ 0.22
Effect of dilutive stock options	(0.01)	—	(0.01)	—
Net income per share — diluted	\$ 0.12	\$ 0.07	\$ 0.34	\$ 0.22

Basic earnings per share is calculated by dividing net income by the weighted average number of common shares outstanding. Diluted earnings per share includes the dilutive effect of equity based awards using the treasury stock method, the Junior Notes on an if-converted basis and the 2007 Convertible Notes using the treasury stock method, if their effect is dilutive.

Equity based awards exercisable for approximately 21.6 million shares were outstanding but not included in the computation of earnings per share for the three-month period ended June 27, 2008 as their effect would have been anti-dilutive. Junior Notes convertible into approximately 1.0 million shares and equity based awards exercisable for approximately 23.5 million shares were outstanding but not included in the computation of earnings per share for the nine-month period ended June 27, 2008 as their effect would have been anti-dilutive. If the Company had earned at least \$59.4 million in net income for the nine-month period ended June 27, 2008, the Junior Notes would have been dilutive to earnings per share.

The 2007 Convertible Notes contain cash settlement provisions, which permit the application of the treasury stock method in determining potential share dilution associated with the conversion spread should the share price of the Company's common stock exceed \$9.52. It has been the Company's historical practice to cash settle the principal and interest components of convertible debt instruments, and it is our intention to continue to do so in the future, including settlement of the 2007 Convertible Notes. These shares have not been included in the computation of earnings per share for the three or nine-month period ended June 27, 2008 as their effect would have been anti-dilutive. The maximum potential dilution from the settlement of the 2007 Convertible Notes would be approximately 21.0 million shares.

SKYWORKS SOLUTIONS, INC.

NOTES TO UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS — Continued

Junior Notes convertible into approximately 5.5 million shares and equity based awards exercisable for approximately 19.8 million shares were outstanding but not included in the computation of earnings per share for the three-month period ended June 29, 2007 as their effect would have been anti-dilutive. Junior Notes convertible into approximately 5.5 million shares and equity based awards exercisable for approximately 19.8 million shares were outstanding but not included in the computation of earnings per share for the nine-month period ended June 29, 2007 as their effect would have been anti-dilutive. If the Company had earned at least \$19.5 million and \$59.2 million in net income for the three and nine-month periods ended June 29, 2007, respectively, the Junior Notes would have been dilutive to earnings per share.

14. COMPREHENSIVE INCOME (LOSS)

The components of comprehensive income are as follows:

(In thousands)	Three-months Ended		Nine-months Ended	
	June 27, 2008	June 29, 2007	June 27, 2008	June 29, 2007
Net Income	\$ 20,466	\$ 11,423	\$ 56,217	\$ 35,657
Other comprehensive income (loss):				
Unrealized loss on auction rate securities	—	—	(1,504)	—
Total comprehensive income	<u>\$ 20,466</u>	<u>\$ 11,423</u>	<u>\$ 54,713</u>	<u>\$ 35,657</u>

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This report and other documents we have filed with the Securities and Exchange Commission ("SEC") contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities and Exchange Act of 1934, as amended, and are subject to the "safe harbor" created by those sections. Words such as "believes," "expects," "may," "will," "would," "should," "could," "seek," "intends," "plans," "potential," "continue," "estimates," "anticipates," "predicts," and similar expressions or variations or negatives of such words are intended to identify forward-looking statements, but are not the exclusive means of identifying forward-looking statements in this report. Additionally, statements concerning future matters such as the development of new products, enhancements or technologies, sales levels, expense levels and other statements regarding matters that are not historical are forward-looking statements. Although forward-looking statements in this report reflect the good faith judgment of our management, such statements can only be based on facts and factors currently known by us. Consequently, forward-looking statements involve inherent risks and uncertainties and actual results and outcomes may differ materially and adversely from the results and outcomes discussed in or anticipated by the forward-looking statements. A number of important factors could cause actual results to differ materially and adversely from those in the forward-looking statements. We urge you to consider the risks and uncertainties discussed in our Annual Report on Form 10-K for the fiscal year ended September 28, 2007, under the heading "Certain Business Risks" and in the other documents filed with the SEC in evaluating our forward-looking statements. We have no plans, and undertake no obligation, to revise or update our forward-looking statements to reflect any event or circumstance that may arise after the date of this report. We caution readers not to place undue reliance upon any such forward-looking statements, which speak only as of the date made.

In this document, the words "we," "our," "ours" and "us" refer only to Skyworks Solutions, Inc. and not any other person or entity.

RESULTS OF OPERATIONS**THREE AND NINE-MONTHS ENDED JUNE 27, 2008 AND JUNE 29, 2007**

The following table sets forth the results of our operations expressed as a percentage of net revenues for the three and nine-month periods ended June 27, 2008:

	Three-months Ended		Nine-months Ended	
	June 27, 2008	June 29, 2007	June 27, 2008	June 29, 2007
Net revenues	100.0%	100.0%	100.0%	100.0%
Cost of goods sold	59.8	60.8	60.3	61.4

Provision for income taxes	0.8	0.7	0.9	0.5
Net income	9.5%	6.5%	8.9%	6.4%

[Table of Contents](#)

GENERAL

During the three and nine-month periods ended June 27, 2008, certain key factors contributed to our overall results of operations and cash flows from operations. More specifically:

- § We increased revenues by \$76.2 million, a 13.8% increase for the nine-month period ended June 27, 2008 as compared to the same period in the prior year. This revenue growth was principally due to the diversification in our handset product portfolio, addition of new mobile platform customers, our entrance into new, adjacent markets and the expansion of our market share in increasingly complex front-end modules at our existing customers.
- § We generated \$122.1 million in cash from operations in the nine-month period ended June 27, 2008, an increase of \$67.3 million from the comparable nine-month period ended June 29, 2007. At June 27, 2008 we had \$254.0 million in cash, cash equivalents and restricted cash.
- § We leveraged our catalog business and worldwide distribution network and expanded into a broader set of end markets including broadband communications, energy management, satellite radio, industrial, medical and wireless networking. We increased gross profit by \$17.8 million in the third quarter of fiscal 2008 (a gross profit margin of 40.2%) as compared to the same period in 2007, and by \$36.5 million during the nine-month period ended June 27, 2008 as compared to the same period in the prior year (a gross profit margin of 39.7%). This gross profit margin improvement is principally the result of a more favorable revenue mix, higher equipment efficiencies at our factories, progress on yield improvement initiatives, and year-over-year material cost reductions.
- § We increased operating income to \$62.4 million for the first nine-month period of fiscal 2008 as compared to operating income of \$40.3 million in the corresponding period of fiscal 2007. This 54.7% increase in operating income was primarily the result of increases in revenues of 13.8%, gross margin improvements driven by the aforementioned improvement in yields, equipment efficiencies, and year-over-year material cost reductions, partially offset by higher operating expenses.
- § In October 2007, we paid \$32.6 million in cash to acquire certain assets from two separate companies. We acquired raw materials, die bank, finished goods, proprietary GaAs PA/FEM designs and related intellectual property in a business combination from Freescale Semiconductor. We also acquired sixteen fundamental HBT and RF MEMs patents from another company in an asset acquisition, and in November 2007 we retired the entire \$49.3 million balance of our Junior Notes and in the process reduced the future potential dilution of our share base.

NET REVENUES

(dollars in thousands)	Three-months Ended			Nine-months Ended		
	June 27, 2008	Change	June 29, 2007	June 27, 2008	Change	June 29, 2007
Net revenues	\$215,210	22.9%	\$175,050	\$627,451	13.8%	\$551,290

We market and sell our mobile platforms and linear products to top tier Original Equipment Manufacturers (“OEMs”) of communication electronic products, third-party Original Design Manufacturers (“ODMs”) and contract manufacturers, and indirectly through electronic components distributors. We periodically enter into strategic arrangements leveraging our broad intellectual property portfolio by licensing our patents or other intellectual property. We anticipate continuing this intellectual property strategy in future periods.

[Table of Contents](#)

Net revenues increased 22.9% for the third fiscal quarter of 2008 as compared to the third fiscal quarter of 2007. Net revenues for the nine-month period ended June 27, 2008 increased 13.8% as compared to the corresponding period in fiscal 2007. This revenue growth was principally due to the diversification in our handset product portfolio, addition of new mobile platform customers, our entrance into new, adjacent markets and the expansion of our market share in increasingly complex front-end modules at our existing customers. Net revenues from our top three customers decreased to 41.5% in the third quarter of fiscal 2008 from 46.8% in the third quarter of fiscal 2007, reflecting continued expansion of our customer base. Average selling prices declined 8.8% year over year compared to a decline of 10.8% in the prior year.

GROSS PROFIT

(dollars in thousands)	June 27, 2008	Three-months Ended Change	June 29, 2007	June 27, 2008	Nine-months Ended Change	June 29, 2007
Gross profit	\$86,434	25.9%	\$68,632	\$249,139	17.2%	\$212,650
% of net revenues	40.2%		39.2%	39.7%		38.6%

Gross profit represents net revenues less cost of goods sold. Cost of goods sold consists primarily of purchased materials, labor and overhead (including depreciation and equity based compensation expense) associated with product manufacturing.

The increase in gross profit as a percentage of revenue and in aggregate dollars for both the three and nine-month periods ended June 27, 2008 as compared to the corresponding periods in the previous fiscal year was principally the result of a more favorable revenue mix as compared to the same periods in the prior year. Additionally, gross profit margin improvement is the result of higher equipment efficiencies at our factories as our established hybrid manufacturing model with multiple external foundries allows us to maintain high internal capacity utilization by creating second-sources for high fixed cost services like foundry and assembly. This approach provides supply chain flexibility, lower capital investment and the ability to meet upside demand and provides gross margin advantages. Furthermore, yield improvements and year-over-year material cost reductions along with the increased overall revenue contributed to the gross profit and margin improvement in both aggregate dollars and as a percentage of sales. In the three and nine-month periods ended June 27, 2008 and the corresponding periods in 2007, we also benefited from higher contribution margins associated with the licensing and/or sale of intellectual property.

RESEARCH AND DEVELOPMENT

(dollars in thousands)	June 27, 2008	Three-months Ended Change	June 29, 2007	June 27, 2008	Nine-months Ended Change	June 29, 2007
Research and development	\$36,561	19.7%	\$30,549	\$107,236	16.1%	\$92,344
% of net revenues	17.0%		17.5%	17.1%		16.8%

Research and development expenses consist principally of direct personnel costs, costs for pre-production evaluation and testing of new devices, and design and test tool costs.

The increase in research and development expenses in aggregate dollars for the three and nine-month periods ended June 27, 2008 when compared to the corresponding periods in the previous fiscal year is principally attributable to increased labor and benefit costs and increases in material expenses as we continue to diversify our handset product area and grow our linear products area. The decrease in research and development expenses as a percentage of sales for the three-month period ended June 27, 2008 as compared to the same period last year is due to the increase in overall revenue. The increase in research and development expenses as a percentage of sales for the nine-month period ended June 27, 2008 as compared to the corresponding period in the prior year is due to the aforementioned increase in aggregate expenses offset by the increase in revenue.

[Table of Contents](#)**SELLING, GENERAL AND ADMINISTRATIVE**

(dollars in thousands)	Three-months Ended		June 29, 2007	Nine-months Ended		June 29, 2007
	June 27, 2008	Change		June 27, 2008	Change	
Selling, general and administrative	\$25,975	4.4%	\$24,874	\$74,608	2.7%	\$72,652
% of net revenues	12.1%		14.2%	11.9%		13.2%

Selling, general and administrative expenses include personnel costs (legal, accounting, treasury, human resources, information systems, customer service, etc.), bad debt expense, sales representative commissions, advertising and other marketing costs.

Selling, general and administrative expenses increased in aggregate dollars for both the three and nine-month periods ended June 27, 2008 primarily due to higher share-based compensation expense, higher incentive compensation costs and higher professional services expenses. Selling, general and administrative expenses as a percentage of net revenues decreased for both the three and nine-month periods ended June 27, 2008 as compared to the prior periods due to the increase in revenues for both periods in fiscal 2008 as compared to 2007.

AMORTIZATION OF INTANGIBLE ASSETS

(dollars in thousands)	Three-months Ended		June 29, 2007	Nine-months Ended		June 29, 2007
	June 27, 2008	Change		June 27, 2008	Change	
Amortization	\$1,101	105.4%	\$536	\$4,904	205.0%	\$1,608
% of net revenues	0.5%		0.3%	0.8%		0.3%

The increase in amortization expense during the three and nine-month periods ended June 27, 2008 as compared to the corresponding periods of fiscal 2007 is due to the acquisitions completed in October 2007 and the associated amortizable customer relationships, patents, order backlog, foundry services agreement and developed technology that was acquired. In the nine-month period of fiscal 2008, the base of our amortizable intangible assets increased by approximately \$13.2 million.

RESTRUCTURING AND SPECIAL CHARGES

(dollars in thousands)	Three-months Ended		June 29, 2007	Nine-months Ended		June 29, 2007
	June 27, 2008	Change		June 27, 2008	Change	
Restructuring and special charges	\$ —	(100.0)%	\$257	\$ —	(100.0)%	\$5,730
% of net revenues	0.0%		0.1%	0.0%		1.0%

Restructuring and special charges consist of charges for asset impairments and restructuring activities, as follows:

On September 29, 2006, the Company exited its baseband product area in order to focus on its core business encompassing linear products, power amplifiers, front-end modules and radio solutions. The Company recorded various charges associated with this action.

During the three-month period ended June 29, 2007, we recorded a reduction in restructuring charges of \$(0.6) million relating to the exit of the baseband product area. This primarily consisted of a \$0.5 million charge related to severance and benefits and a \$0.4 million charge related to lease obligations associated with the closure of certain

[Table of Contents](#)

locations, offset by a \$1.5 million credit related to an engineering vendor charge associated with the baseband product area.

During the nine-month period ended June 29, 2007, we recorded additional restructuring charges of \$4.9 million related to the exit of the baseband product area. These charges consist of a \$4.5 million charge relating to the exit of certain operating leases, a \$0.5 million charge relating to additional severance, a \$1.4 million charge related to the write-down of technology licenses and design software, offset by a \$1.5 million credit related to an engineering vendor charge associated with the baseband product area.

In addition, for the three and nine-month periods ended June 29, 2007, the Company recorded a charge of \$0.8 million relating to lease obligations associated with a restructuring plan implemented in 2002.

For additional information regarding restructuring charges and liability balances, see Note 10 of Notes to Unaudited Interim Consolidated Financial Statements.

INTEREST EXPENSE

	June 27, 2008	Three-months Ended Change	June 29, 2007	June 27, 2008	Nine-months Ended Change	June 29, 2007
(dollars in thousands)						
Interest expense	\$1,658	(35.3)%	\$2,565	\$5,635	(43.2)%	\$9,928
% of net revenues	0.8%		1.5%	0.9%		1.8%

Interest expense is comprised principally of payments in connection with the \$50.0 million credit facility between Skyworks USA, Inc., our wholly owned subsidiary, and Wachovia Bank, N.A. ("Facility Agreement"), the Company's 4.75% convertible subordinated notes (the "Junior Notes"), and the Company's 1.50% and 1.25% convertible subordinated notes (the "2007 Convertible Notes").

The decrease in interest expense both in aggregate dollars and as a percentage of net revenues for the three and nine-month periods ended June 27, 2008, when compared to the corresponding periods in fiscal 2007, is due to the retirement of our higher interest rate Junior Notes.

See Note 7 of Notes to Unaudited Interim Consolidated Financial Statements for information related to our borrowing arrangements.

OTHER INCOME, NET

	June 27, 2008	Three-months Ended Change	June 29, 2007	June 27, 2008	Nine-months Ended Change	June 29, 2007
(dollars in thousands)						
Other income, net	\$1,064	(61.5)%	\$2,766	\$4,997	(36.1)%	\$7,824
% of net revenues	0.5%		1.6%	0.8%		1.4%

Other income, net is comprised primarily of interest income on invested cash balances, other non-operating income and expense items and foreign exchange gains/losses.

The decreases in other income in both aggregate dollars and as a percentage of net revenues for both the three and nine-month periods ended June 27, 2008 as compared to the prior periods is due to declining interest rates in 2008.

PROVISION FOR INCOME TAXES

(dollars in thousands)	Three-months Ended		June 29, 2007	Nine-months Ended		June 29, 2007
	June 27, 2008	Change		June 27, 2008	Change	
Provision for income taxes	\$1,737	45.5%	\$1,194	\$5,536	116.6%	\$2,555
% of net revenues	0.8%		0.7%	0.9%		0.5%

In accordance with SFAS 109, "Accounting for Income Taxes", management has determined that it is more likely than not that a portion of our historic and current year income tax benefits will not be realized. Accordingly, as of June 27, 2008, we have maintained a valuation allowance of \$126.2 million related to our United States deferred tax assets. Deferred tax assets have been recognized for foreign operations when management believes that it is more likely than not that they will be recovered during the carryforward period.

Realization of benefits from our net operating losses is dependent upon generating U.S. source taxable income in the future, which may result in the existing valuation reserve being reversed in the near term to the extent that the related deferred tax assets no longer require a valuation allowance under the provisions of SFAS 109.

The provision for income taxes for the three and nine-month period ended June 27, 2008 consists of approximately \$2.5 million and \$6.0 million, respectively, of U.S. income taxes. Of the total U.S. income tax provision, \$2.0 million and \$4.7 million were recorded as a charge reducing the carrying value of goodwill for the three and nine-month periods ended June 27, 2008.

As noted in our Annual Report on Form 10-K, no benefit has been recognized in the Statement of Operations for certain deferred tax assets that were in existence in 2002. The benefit from the recognition of these deferred items reduces the carrying value of goodwill instead of reducing income tax expense. We will evaluate the realization of the pre-Merger deferred tax assets on a quarterly basis and adjust the provision for income taxes accordingly. As a result, the effective tax rate may vary in subsequent quarters. In addition, the provision for the three and nine-month periods ended June 27, 2008, consists of approximately \$0.3 million and \$0.5 million, respectively, of foreign income taxes incurred by foreign operations.

On October 1, 2007, Mexico enacted a new "flat tax" regime which became effective January 1, 2008. SFAS 109, "Accounting for Income Taxes", prescribes that the effect of the new tax on deferred taxes must be included in tax expense in the period that includes the enactment date. The effect of recording deferred taxes in the first fiscal quarter of 2008 to the foreign tax provision (benefit) was \$(0.2) million. In addition to the deferred taxes, the Company has accrued flat tax for the three and nine-month periods ended June 27, 2008 of \$0.1 million and \$0.2 million, respectively.

The Company adopted FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109", as of the beginning of fiscal year 2008. During the quarter ended June 27, 2008, the statute of limitations period expired relating to an unrecognized tax benefit. The expiration of the statute of limitations period resulted in the recognition of \$0.6 million of previously unrecognized tax benefit, which impacted the effective tax rate as a discrete item during the quarter. In addition, \$0.5 million of accrued interest related to this tax position was reversed during the quarter, resulting in a total year-to-date benefit for accrued interest of \$0.4 million.

Of the total unrecognized tax benefits at June 27, 2008, none would impact the effective tax rate, if recognized. There are no positions which we anticipate could change within the next twelve months.

LIQUIDITY AND CAPITAL RESOURCES*Cash Provided and Used*

(dollars in thousands)	Nine-months Ended	
	June 27, 2008	June 29, 2007
Cash and cash equivalents at beginning of period	\$ 241,577	\$ 136,749
Net cash provided by operating activities	122,075	54,761
Net cash used in investing activities	(81,973)	(77,315)
Net cash provided by (used in) financing activities	(33,664)	39,000
Cash and cash equivalents at end of period	<u>\$ 248,015</u>	<u>\$ 153,195</u>

Cash and cash equivalent balances increased \$6.4 million to \$248.0 million at June 27, 2008 from \$241.6 million at September 28, 2007. We generated \$122.1 million in cash from operations during the nine month period ending June 27, 2008 which was offset by the retirement of \$49.3 million of Junior Notes, capital expenditures of \$51.8 million and expenditures on strategic acquisitions of \$32.6 million. The number of days sales outstanding for the three-month period ended June 27, 2008 decreased to 72 from 85 for the corresponding period in the previous fiscal year. Annualized inventory turns for the three-month period ended June 27, 2008 were 5.4 compared to 5.1 for the corresponding period in the previous fiscal year.

During the nine-month period ended June 27, 2008, we achieved net income of \$56.2 million. We experienced an increase in accounts payable balances of \$12.8 million and incurred multiple non-cash charges (e.g., depreciation, amortization, charge in lieu of income tax expense, contribution of common shares to savings and retirement plans and share-based compensation expense) totaling \$68.1 million. This was offset by an increase in inventories of \$8.4 million, an increase in receivables of \$1.9 million, and a decrease in other accrued liabilities of \$5.3 million.

Cash used in investing activities for the nine-month period ended June 27, 2008 consisted of net sales of \$2.5 million in auction rate securities and investments in demand-driven capital expenditures of \$51.8 million primarily for fabrication and assembly and test capacity. In addition, we paid \$32.6 million in cash to acquire certain assets from two separate companies. We acquired raw materials, die bank, finished goods, proprietary GaAs PA/FEM designs and related intellectual property in a business combination from Freescale Semiconductor. We also acquired sixteen fundamental HBT and RF MEMS patents from another company in an asset acquisition. We believe a focused program of capital expenditures will be required to sustain our current manufacturing capabilities. Future capital expenditures will be funded by the generation of positive cash flows from operations. We may also consider additional future acquisition opportunities to extend our technology portfolio and design expertise and to expand our product offerings.

Cash used in financing activities for the nine-month period ended June 27, 2008, consisted of the retirement of the remaining \$49.3 million in Junior notes and repurchase of common stock of \$1.7 million, offset by cash provided by stock option exercises of \$16.9 million.

In connection with our exit of the baseband product area, we anticipate making remaining cash payments of approximately \$1.9 million in future periods. Certain payments on long-term lease obligations resulting from facility closures and severance payments will be remitted in periods beyond fiscal 2008. We expect our existing sources of liquidity, together with cash expected to be generated from operations will be sufficient to fund these costs associated with the exit of our baseband product area.

Our invested cash balances primarily consist of highly rated commercial paper, United States treasury obligations, United States agency obligations, overnight repurchase agreements backed by United States treasuries or United States agency obligations, certificates of deposit and foreign bank obligations. At June 27, 2008, we also held a \$3.2 million auction rate security which provides liquidity through a Dutch auction process. The recent uncertainties in the credit markets have disrupted the liquidity of this process resulting in failed auctions. Accordingly, in the first nine-month period of fiscal 2008, we recorded unrealized losses on this auction rate security of approximately \$1.5 million. We assessed these declines in fair market value to be temporary and

[Table of Contents](#)

consider the security to be illiquid until there is a successful auction. Accordingly, the remaining auction rate security balance has been reclassified to non-current other assets. We expect to continue to monitor the liquidity and accounting classification of this security in future periods.

Prospective Capital Needs

Based on our results of operations for fiscal 2007 and the first nine months of fiscal 2008 along with current trends, we expect our existing sources of liquidity, together with cash expected to be generated from operations, will be sufficient to fund our research and development, capital expenditures, debt obligations, purchase obligations, working capital and other cash requirements for at least the next 12 months. However, we cannot be certain that the capital required to fund these expenses will be available in the future. In addition, any strategic investments and acquisitions that we may make to help us grow our business may require additional capital resources. If we are unable to obtain enough capital to meet our capital needs on a timely basis or at all, our business and operations could be materially adversely affected.

CONTRACTUAL OBLIGATIONS

On November 15, 2007, we retired \$49.3 million of Junior Notes from cash funds. Other than this debt retirement, the contractual obligations disclosure described in our Annual Report on Form 10-K for the year ended September 28, 2007 has not materially changed since we filed that report. Our short-term and long-term debt obligations are more fully described in Note 7 of Notes to Unaudited Interim Financial Statements.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

SFAS 157

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (“SFAS 157”) which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. The Company has not yet determined the impact that SFAS 157 will have on its results from operations or financial position.

SFAS 159

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (“SFAS 159”) including an amendment of SFAS No. 115, which permits entities to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. SFAS 159 is effective for the Company beginning in fiscal 2009. The Company is currently evaluating SFAS 159 and the impact that it may have on results of operations or financial position.

SFAS 141(R)

In December 2007, the FASB issued SFAS No. 141(R), *Business Combinations* (SFAS 141(R)). SFAS 141(R) applies to any transaction or other event that meets the definition of a business combination. Where applicable, SFAS No. 141(R) establishes principles and requirements for how the acquirer recognizes and measures identifiable

[Table of Contents](#)

assets acquired, liabilities assumed, noncontrolling interest in the acquiree and goodwill or gain from a bargain purchase. In addition, SFAS 141(R) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. This statement is to be applied prospectively for fiscal years beginning after December 15, 2008. The Company is in the process of evaluating the impact of SFAS No. 141(R) on its Consolidated Financial Statements.

SFAS 160

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements, An Amendment of ARB No. 51* (“SFAS 160”). SFAS 160 amends ARB 51 to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It also amends certain of ARB 51’s consolidation procedures for consistency with the requirements of SFAS 141(R). This statement is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. The statement shall be applied prospectively as of the beginning of the fiscal year in which the statement is initially adopted. The Company does not expect the adoption of SFAS 160 to impact its results of operations or financial position because the Company does not have any minority interests.

SFAS 161

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities—an amendment of FASB Statement No. 133* (“SFAS 161”). SFAS 161 amends FASB Statement No. 133 to require enhanced disclosures about an entity’s derivative and hedging activities thereby improving the transparency of financial reporting. Entities are required to provide enhanced disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under Statement 133 and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity’s financial position, financial performance, and cash flows. This Statement is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. The Company does not currently have any derivative instruments or participate in hedging activities and thus does not expect the adoption of SFAS 161 to have any impact on its results of operations or financial position.

FSP No. 142-3

In April 2008, the FASB issued FASB Staff Position (“FSP”) No. 142-3, “Determination of the Useful Life of Intangible Assets”. FSP 142-3 amends the factors an entity should consider in developing renewal or extension assumptions used in determining the useful life of recognized intangible assets under FASB Statement No. 142, “Goodwill and Other Intangible Assets”. This new guidance applies prospectively to intangible assets that are acquired individually or with a group of other assets in business combinations and asset acquisitions. FSP 142-3 is effective for financial statements issued for fiscal years and interim periods beginning after December 15, 2008. Early adoption is prohibited. The Company is currently evaluating FSP 142-3 and the impact that it may have on its Consolidated Financial Statements.

FSP No. APB 14-1

In May 2008, the FASB issued FASB Staff Position (“FSP”) No. APB 14-1 “Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement)”. This FSP alters the accounting treatment for convertible debt instruments that allow for either mandatory or optional cash settlements. FSP APB 14-1 is expected to impact the Company’s accounting for its \$200.0 million 2007 Convertible Notes. This FSP requires registrants with specified convertible note features to recognize (non-cash) interest expense based on the market rate for similar debt instruments without the conversion feature. Furthermore, pursuant to its retrospective accounting treatment, the FSP requires prior period interest expense recognition. FSP APB 14-1 is effective for financial statements issued for fiscal years and interim periods beginning after December

[Table of Contents](#)

15, 2008. The Company is currently evaluating FSP APB 14-1 and the impact that it will have on its Consolidated Financial Statements. The Company is not required to adopt FSP APB 14-1 until the first quarter of fiscal 2010.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are subject to foreign currency, market rate and interest risks as described below:

Investment and Interest Rate Risk

Our exposure to interest and market risk relates principally to our investment portfolio, which as of June 27, 2008 consisted of \$255.7 million in:

Cash and cash equivalents (time deposits, overnight repurchase agreements and money market funds)	\$ 248.0
Restricted cash (time deposits and certificates of deposit)	6.0
Available for sale securities (auction rate securities)	1.7
Total	<u>\$ 255.7</u>

The main objective of our investment activities is the preservation of investment capital. Credit risk associated with our investments is not significant as our investment policy prescribes high credit quality standards and limits the amount of credit exposure to any one issuer. We do not use derivative instruments for speculative or investment purposes.

In general, our cash and cash equivalent investments have short-term maturity periods which dampen the impact of significant market or interest rate risk. We are, however, subject to overall financial market risks, such as changes in market liquidity, credit quality and interest rates. Available for sale securities carry a longer maturity period (contractual maturities exceed ten years). In fiscal 2008 we experienced a temporary unrealized loss on our investment in auction rate securities primarily caused by a disruption in the liquidity of the Dutch auction process which resets interest rates each month. We classified auction rate securities in prior periods as current assets under "Short Term Investments". Given the failed auctions, the auction rate securities are effectively illiquid until there is a successful auction. Accordingly, the remaining auction rate securities balance has been reclassified to non-current other assets. However, we have the ability and intent to hold these investments until there is a full recovery of its fair value, which may be at maturity.

The U.S. sub-prime mortgage crisis and other recent credit-related issues have had widespread negative effects on global financial markets. The credit concerns and lack of liquidity in the short-term markets have reinforced our temporary investment bias toward government-backed securities and other high credit quality commercial paper and time deposits. If global credit markets continue to deteriorate, investments may be negatively impacted, particularly in the form of declining yields, which may impact future interest income.

Exchange Rate Risk

Substantially all sales to customers and arrangements with third-party manufacturers provide for pricing and payment in United States dollars, thereby reducing the impact of foreign exchange rate fluctuations on our results. A small percentage of our international operational expenses are denominated in foreign currencies. Exchange rate volatility could negatively or positively impact those operating costs. The Company incurred unrealized foreign exchange gains/(losses) of \$0.3 million and \$0.2 million for the three and nine-month period ended June 27, 2008 and \$0.0 and \$(0.1) million for the three and nine-month period ended June 29, 2007. Increases in the value of the U.S. dollar relative to other currencies could make our products more expensive, which could negatively impact our ability to compete. Conversely, decreases in the value of the U.S. dollar relative to other currencies could result in our suppliers raising their prices to continue doing business with us. Fluctuations in currency exchange rates could have a greater effect on our business in the future.

Item 4. Controls and Procedures*(a) Evaluation of disclosure controls and procedures.*

Our management, with the participation of our chief executive officer and chief financial officer, evaluated the effectiveness of our disclosure controls and procedures as of June 27, 2008. The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company’s management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on the evaluation of our disclosure controls and procedures as of June 27, 2008, our chief executive officer and chief financial officer concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level.

(b) Changes in internal controls over financial reporting.

No changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) occurred during the fiscal quarter ended June 27, 2008 that has materially affected, or is reasonably likely to materially affect, Skyworks’ internal control over financial reporting.

PART II OTHER INFORMATION**Item 1A. Risk Factors**

There have been no significant changes in the risk factors disclosed in Item 1A of our Annual Report on Form 10-K for the year ended September 28, 2007.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(c) The following table provides information regarding repurchases of common stock made by us during the fiscal quarter ended June 27, 2008:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximately Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs
May 10, 2008	7,673(1)	\$ 8.48	N/A(2)	N/A(2)
June 13, 2008	3,907(1)	\$10.85	N/A(2)	N/A(2)

- (1) All shares of common stock reported in the table above were repurchased by Skyworks at the fair market value of the common stock on May 10, 2008 and June 13, 2008, respectively, in connection with the satisfaction of tax withholding obligations under restricted stock agreements between Skyworks and certain of its key employees.
- (2) We have no publicly announced plans or programs.

CERTIFICATION OF THE CEO PURSUANT TO SECURITIES EXCHANGE ACT OF 1934, AS AMENDED, RULES 13a-14(a) AND 15d-14(a) AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, David J. Aldrich, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Skyworks Solutions, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statement made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and,
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
