Skyworks Named to the Globe 100 for the Fourth Consecutive Year

Ranked 8th in the Boston Globe's 2011 Listing of the Best Performing Public Companies in Massachusetts

WOBURN, Mass.--(BUSINESS WIRE)--Jun. 4, 2012-- Skyworks Solutions, Inc. (NASDAQ:SWKS), an innovator of high reliability analog semiconductors enabling a broad range of end markets, today announced that it has been named to the Boston Globe's list of top performing public companies in Massachusetts for the fourth consecutive year. The Globe 100 ranking, which is now in its 24th year, is based on several financial factors including year-over-year revenue growth and profit margin, as well as return on average equity. For the first time in three years, the Globe 100 list features 100 companies. In 2010 and 2011, less than 100 companies qualified given the impact of the recession.

"The positive momentum we are seeing in the economic recovery is illustrated by the Globe 100 returning to full strength," said Shirley Leung, business editor at the Boston Globe. "It's a powerful testament to the resiliency of Massachusetts' businesses."

"Skyworks is delighted to once again be recognized as one of Massachusetts's most highly regarded and well performing companies," said David J. Aldrich, president and chief executive officer at Skyworks. "In 2011, Skyworks made significant progress towards solidifying our leadership position in analog semiconductor solutions across a diverse set of applications. We are capitalizing on consumers' demand for mobile connectivity and are well positioned to benefit from the explosive growth in wirelessly-enabled platforms and services."

About the Globe 100 Ranking Methodology

The Globe 100 ranks Massachusetts-based public companies based on financial data from the four quarters ending December 31, 2011. To be eligible, the company must be traded publicly for the entire 2011 calendar year on the New York Stock Exchange, the Nasdaq or the American Stock Exchange and report revenue and profit for both 2010 and 2011. Companies are ranked on four criteria: return on average equity, one-year percentage change in revenue, one-year percentage change in profit margin and 2011 revenue. The rankings may be seen at: <http://www.bostonglobe.com/business/specials/globe-100>.

About The Boston Globe

The Boston Globe is wholly owned by the New York Times Company (NYSE: NYT), a leading, global multimedia news and information company with 2011 revenues of \$2.3 billion, that includes The New York Times, the International Herald Tribune, The Boston Globe, [NYTimes.com](http://www.nytimes.com), [BostonGlobe.com](http://www.bostonglobe.com), [Boston.com](http://www.boston.com), [About.com](http://www.about.com) and related properties. The Company's core purpose is to enhance society by creating, collecting and distributing high-quality news, information and entertainment.

About Skyworks

Skyworks Solutions, Inc. is an innovator of high reliability analog semiconductors. Leveraging core technologies, Skyworks offers high performance analog products supporting automotive, broadband, cellular infrastructure, energy management, industrial, medical, military, wireless networking, smartphone and tablet applications. The Company's portfolio includes amplifiers, attenuators, circulators, detectors, diodes, directional couplers, front-end modules, hybrids, infrastructure RF subsystems, isolators, lighting and display solutions, mixers/demodulators, optocouplers, optoisolators, phase shifters, PLLs/synthesizers/VCOs, power dividers/combiners, power management devices, receivers, switches and technical ceramics.

Headquartered in Woburn, Mass., Skyworks is worldwide with engineering, manufacturing, sales and service facilities throughout Asia, Europe and North America. For more information, please visit Skyworks' Web site at: www.skyworksinc.com.

Safe Harbor Statement

This news release includes "forward-looking statements" intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. These forward-looking statements include without limitation information relating to future results and expectations of Skyworks (including without limitation certain projections and business trends). Forward-looking statements can often be identified by words such as "anticipates," "expects," "forecasts," "intends," "believes," "plans," "may," "will," or "continue," and similar expressions and variations or negatives of these words. All such statements are subject to certain risks, uncertainties and other important factors that could cause actual results to differ materially and adversely from

those projected, and may affect our future operating results, financial position and cash flows.

These risks, uncertainties and other important factors include, but are not limited to: uncertainty regarding global economic and financial market conditions; the susceptibility of the wireless semiconductor industry and the markets addressed by our, and our customers', products to economic downturns; the timing, rescheduling or cancellation of significant customer orders and our ability, as well as the ability of our customers, to manage inventory; losses or curtailments of purchases or payments from key customers, or the timing of customer inventory adjustments; the availability and pricing of third party semiconductor foundry, assembly and test capacity, raw materials and supplier components; changes in laws, regulations and/or policies in the United States that could adversely affect financial markets and our ability to raise capital; our ability to develop, manufacture and market innovative products in a highly price competitive and rapidly changing technological environment; whether we are able to successfully integrate Advanced Analogic Technologies' operations; economic, social and political conditions in the countries in which we, our customers or our suppliers operate, including security and health risks, possible disruptions in transportation networks and fluctuations in foreign currency exchange rates; fluctuations in our manufacturing yields due to our complex and specialized manufacturing processes; delays or disruptions in production due to equipment maintenance, repairs and/or upgrades; our reliance on several key customers for a large percentage of our sales; fluctuations in the manufacturing yields of our third party semiconductor foundries and other problems or delays in the fabrication, assembly, testing or delivery of our products; our ability to timely and accurately predict market requirements and evolving industry standards, and to identify opportunities in new markets; uncertainties of litigation, including potential disputes over intellectual property infringement and rights, as well as payments related to the licensing and/or sale of such rights; our ability to rapidly develop new products and avoid product obsolescence; our ability to retain, recruit and hire key executives, technical personnel and other employees in the positions and numbers, with the experience and capabilities, and at the compensation levels needed to implement our business and product plans; lengthy product development cycles that impact the timing of new product introductions; unfavorable changes in product mix; the quality of our products and any remediation costs; shorter than expected product life cycles; problems or delays that we may face in shifting our products to smaller geometry process technologies and in achieving higher levels of design integration; and our ability to continue to grow and maintain an intellectual property portfolio and obtain needed licenses from third parties, as well as other risks and uncertainties, including, but not limited to, those detailed from time to time in our filings with the Securities and Exchange Commission.

These forward-looking statements are made only as of the date hereof, and we undertake no obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise.
