## **Skyworks to Present at Investor Technology Conferences**

### **e-Commerce Initiative Provides Customers With A New Way to Order Volume Shipments and Obtain Samples**

Woburn, Mass., April 19, 2005 Skyworks Solutions, Inc.

(NASDAQ:SWKS), a global leader in analog, mixed signal and digital semiconductors for mobile communications applications, today announced [Innovation to Go™](#), an e-commerce initiative which streamlines order processing, component selection and searches for its Linear Products portfolio. Enabled by a direct launch from the company's website at [www.skyworksin.com](http://www.skyworksin.com), the [Innovation to Go™](#) system is available for placing online sample, evaluation boards, prototype and production orders with real time visibility to selected product in stock.

"We are pleased to offer our customers another fast and efficient way to purchase our linear products solutions," said Liam K. Griffin, Skyworks' vice president of sales and marketing for Skyworks. "Through the launch of our [Innovation to Go™](#) system, engineers, designers and manufacturers can place orders in seconds and expect product delivery within days at any location globally. Time to market is a distinct competitive advantage, and we believe Skyworks' e-commerce program will generate real value for customers as we reduce processing time and costs, and simplify order logistics and supply chain management."

Skyworks' online portfolio of linear products includes highly innovative and high volume switches, attenuators, passives and diodes which support diverse markets including automotive, medical, broadband, direct broadcast satellite, RFID, wireless LAN, handheld/PDA, industrial and cellular infrastructure. Products available via the online store are Pb (lead) - Free and Restriction of Hazardous Substances (RoHS) compliant,

meeting the requirements of the European Waste Electrical and Electronic

Equipment (WEEE) standards. For more information, please visit Skyworks' award-winning website at [www.skyworksinc.com](http://www.skyworksinc.com) and click on [Buy Now](#) to see what is available for online purchase, and for direct access to information about Skyworks other leading edge solutions.

[Innovation to Go™](#)

Select [Linear Products](#) are now available for [purchase online](#).
