IRVINE, Calif., Nov. 12, 2019 – Skyworks Solutions, Inc. (Nasdaq: SWKS), an innovator of high performance analog semiconductors connecting people, places and things, today reported fourth fiscal quarter and fiscal year-end results for the period ended September 27, 2019.

Revenue for the fourth fiscal quarter of 2019 was \$827.4 million, up 8 percent sequentially. On a GAAP basis, operating income for the fourth fiscal quarter of 2019 was \$233.9 million with diluted earnings per share of \$1.22. On a non-GAAP basis, operating income was \$281.1 million with non-GAAP diluted earnings per share of \$1.52.

For fiscal year 2019, revenue was \$3.377 billion, with GAAP diluted earnings per share of \$4.89. Non-GAAP diluted earnings per share for fiscal year 2019 were \$6.17.

“Skyworks delivered solid financial results in the fourth fiscal quarter, closing a year that saw extraordinary market volatility and change,” said Liam K. Griffin, president and chief executive officer of Skyworks. “Looking ahead, we are well positioned to execute on our mission of delivering compelling 5G solutions across a growing and diverse suite of customers and markets. Our systems-level approach, highlighted by our Sky5® platform, now includes strategic capabilities in BAW, Wi-Fi 6, MIMO and custom diversity receive. Collectively, these solutions are unleashing the true potential of 5G – successfully providing a range of options to our customers while increasing the value and utility of each

usage case. We are in the early innings of this substantial technology inflection, as we translate these dynamics into sustainable growth and profitability.”

Fourth Fiscal Quarter Business Highlights

- Accelerated ramp of Sky5® portfolio supporting multiple 5G launches
- Powered Samsung’s suite of 4G mobile devices and their first foldable 5G smartphone
- Enabled LG’s V50ThinQ™ flagship 5G handset featuring an OLED display and dual screens
- Supported leading infrastructure customers with 5G small cell architectures
- Secured Wi-Fi 6 design wins with Netgear in their Orbi™ and Nighthawk platforms
- Delivered LTE-powered IoT engines across Sierra Wireless industrial gateways and transportation platforms
- Commenced volume production of high-performance mesh network connectivity modules for Amazon, Juniper and Ruckus
- Ramped fully integrated LTE solutions with major automotive manufacturers
- Shipped Zigbee® ultra-low power devices for a tier-one home security provider
- Expanded reach at Sonos, enabling their indoor/outdoor portable smart speakers
- Introduced cognitive chipsets for ultra-low latency, next-generation wireless gaming headsets

First Fiscal Quarter 2020 Outlook

We provide earnings guidance on a non-GAAP basis because certain information necessary to reconcile such guidance to GAAP is difficult to estimate and dependent on future events outside of our control. Please refer to the attached Discussion Regarding the Use of Non-GAAP Financial Measures in this press release for a further discussion of our use of non-GAAP measures, including quantification of known expected adjustment items.

“Strategic product ramps, content gains and an expanding footprint across a broad set of customers, end markets and applications are expected to drive sequential revenue and earnings growth in the December quarter,” said Kris Sennesael, senior vice president and chief financial officer of Skyworks. “Specifically, in the first fiscal quarter of 2020, we anticipate revenue to be between \$870 and \$890 million with non-GAAP diluted earnings per share of \$1.65 at the midpoint of our revenue range.”

Dividend Payment

Skyworks’ Board of Directors has declared a cash dividend of \$0.44 per share of the Company’s common stock, payable on December 24, 2019, to stockholders of record at the close of business on December 3, 2019.

Safe Harbor Statement

This news release includes "forward-looking statements" intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. These forward-looking statements include without limitation information relating to future results and expectations of Skyworks (e.g., certain projections and business trends, as well as plans for dividend payments and share repurchases). Forward-looking statements can often be identified by words such as "anticipates," "expects," "forecasts," "intends," "believes," "plans," "may," "will," or "continue," and similar expressions and variations or negatives of these words. All such statements are subject to certain risks, uncertainties and other important factors that could cause actual results to differ materially and adversely from those projected, and may affect our future operating results, financial position and cash flows.

These risks, uncertainties and other important factors include, but are not limited to: the susceptibility of the semiconductor industry and the markets addressed by our, and our customers', products to economic downturns; our reliance on several key customers for a large percentage of our sales; the risks of doing business internationally, including increased import/export restrictions and controls (e.g., the effect of the U.S. Bureau of Industry and Security of the U.S. Department of Commerce placing Huawei Technologies Co., Ltd. and certain of its affiliates on the Bureau's Entity List), imposition of trade protection measures (e.g., tariffs or taxes), security and health risks, possible disruptions in transportation networks, fluctuations in foreign currency exchange rates, and other economic, social, military and geo-political conditions in the countries in which we, our customers or our suppliers operate; the volatility of our stock price; declining selling prices, decreased gross margins, and loss of market share as a result of increased competition; our ability to obtain design wins from customers; delays in the standardization or commercial deployment of 5G technologies; changes in laws, regulations and/or

policies that could adversely affect our operations and financial results, the economy and our customers' demand for our products, or the financial markets and our ability to raise capital; fluctuations in our manufacturing yields due to our complex and specialized manufacturing processes; our ability to develop, manufacture and market innovative products, avoid product obsolescence, reduce costs in a timely manner, transition our products to smaller geometry process technologies, and achieve higher levels of design integration; the quality of our products and any defect remediation costs; our products' ability to perform under stringent operating conditions; the availability and pricing of third-party semiconductor foundry, assembly and test capacity, raw materials and supplier components; our ability to retain, recruit and hire key executives, technical personnel and other employees in the positions and numbers, with the experience and capabilities, and at the compensation levels needed to implement our business and product plans; the timing, rescheduling or cancellation of significant customer orders and our ability, as well as the ability of our customers, to manage inventory; our ability to prevent theft of our intellectual property, disclosure of confidential information, or breaches of our information technology systems; uncertainties of litigation, including potential disputes over intellectual property infringement and rights, as well as payments related to the licensing and/or sale of such rights; our ability to continue to grow and maintain an intellectual property portfolio and obtain needed licenses from third parties; our ability to make certain investments and acquisitions, integrate companies we acquire, and/or enter into strategic alliances; and other risks and uncertainties, including, but not limited to, those detailed from time to time in our filings with the Securities and Exchange Commission.

The forward-looking statements contained in this news release are made only as of the date hereof, and we undertake no obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise.

SKYWORKS SOLUTIONS, INC.

DISCUSSION REGARDING THE USE OF NON-GAAP FINANCIAL MEASURES

Our earnings release contains some or all of the following financial measures that have not been calculated in accordance with United States Generally Accepted Accounting Principles (“GAAP”): (i) non-GAAP gross profit and gross margin, (ii) non-GAAP operating income and operating margin, (iii) non-GAAP net income, and (iv) non-GAAP diluted earnings per share. As set forth in the “Unaudited Reconciliations of Non-GAAP Financial Measures” table found above, we derive such non-GAAP financial measures by excluding certain expenses and other items from the respective GAAP financial measure that is most directly comparable to each non-GAAP financial measure. Management uses these non-GAAP financial measures to evaluate our operating performance and compare it against past periods, make operating decisions, forecast for future periods, compare our operating performance against peer companies and determine payments under certain compensation programs. These non-GAAP financial measures provide management with additional means to understand and evaluate the operating results and trends in our ongoing business by eliminating certain non-recurring expenses and other items that management believes might otherwise make comparisons of our ongoing business with prior periods and competitors more difficult, obscure trends in ongoing operations or reduce management’s ability to make forecasts.

We provide investors with non-GAAP gross profit and gross margin, non-GAAP operating income and operating margin, non-GAAP net income and non-GAAP diluted earnings per share because we believe it is important for investors to be able to closely monitor and understand changes in our ability to generate income from ongoing business operations. We believe these non-GAAP financial measures give investors an additional method to evaluate historical operating performance and identify trends, an additional means of evaluating period-over-period operating performance and a method to facilitate certain comparisons of our operating results to those of our peer companies. We also believe that providing non-GAAP operating income and operating margin allows investors to assess the extent to which our ongoing operations impact our overall financial performance. We further believe that providing non-GAAP net income and non-GAAP diluted earnings per share allows investors to assess the overall financial performance of our ongoing operations by eliminating the impact of share-based compensation expense, acquisition-related expenses, amortization of acquisition-related intangibles, settlements, gains, losses and impairments, restructuring-related charges, certain deferred executive compensation and certain tax items which may not occur in each period presented and which may represent non-cash items unrelated to our ongoing operations. We believe that disclosing these non-GAAP financial measures contributes to enhanced financial reporting transparency and provides investors with added clarity about complex financial performance measures.

We calculate non-GAAP gross profit by excluding from GAAP gross profit, share-based compensation expense, acquisition-related expenses, amortization of acquisition-related intangibles, settlements, gains, losses and impairments, and restructuring-related charges. We calculate non-GAAP operating income by excluding from GAAP operating income, share-based compensation expense, acquisition-related expenses, amortization of acquisition-related intangibles, settlements, gains, losses and impairments, restructuring-related charges, and certain deferred executive compensation. We calculate non-GAAP net income and diluted earnings per share by excluding from GAAP net income and diluted earnings per share, share-based compensation expense, acquisition-related expenses, amortization of acquisition-related intangibles, settlements, gains, losses and impairments, restructuring-related charges, certain deferred executive compensation, and certain tax items. We exclude the items identified above from the respective non-GAAP financial measure referenced above for the reasons set forth with respect to each such excluded item below:

Share-Based Compensation - because (1) the total amount of expense is partially outside of our control because it is based on factors such as stock price volatility and interest rates, which may be unrelated to our performance during the period in which the expense is incurred, (2) it is an expense based upon a valuation methodology premised on assumptions that vary over time, and (3) the amount of the expense can vary significantly between companies due to factors that can be outside of the control of such companies.

Acquisition-Related Expenses - including such items as, when applicable, amortization of acquired intangible assets, fair value adjustments to contingent consideration, fair value charges incurred upon the sale of acquired inventory, and acquisition-related expenses because they are not considered by management in making operating decisions and we believe that such expenses do not have a direct correlation to our future business operations and thereby including such charges does not necessarily reflect the performance of our ongoing operations for the period in which such charges or reversals are incurred.

Restructuring-Related Charges - these charges have no direct correlation to our future business operations and including such charges or reversals does not necessarily reflect the performance of our ongoing operations for the period in which such charges or reversals are incurred.

Settlements, Gains, Losses and Impairments - because such settlements, gains, losses and impairments (1) are not considered by management in making operating decisions, (2) are infrequent in nature, (3) are generally not directly controlled by management, (4) do not necessarily reflect the performance of our ongoing operations for the period in which such charges are recognized and/or (5) can vary significantly in amount between companies and make comparisons less reliable.

Deferred Executive Compensation - including charges related to any contingent obligation pursuant to an executive severance agreement, because that expense has no direct correlation with our recurring business operations and including such expenses or reversals does not accurately reflect the compensation expense for the period in which incurred.

Certain Income Tax Items - including certain deferred tax charges and benefits that do not result in a current tax payment or tax refund and other adjustments, including but not limited to, items unrelated to the current fiscal year or that are not indicative of our ongoing business operations.

The non-GAAP financial measures presented in the table above should not be considered in isolation and are not an alternative for the respective GAAP financial measure that is most directly comparable to each such non-GAAP financial measure. Investors are cautioned against placing undue reliance on these non-GAAP financial measures and are urged to review and consider carefully the adjustments made by management to the most directly comparable GAAP financial measures to arrive at these non-GAAP financial measures. Non-GAAP financial measures may have limited value as analytical tools because they may exclude certain expenses that some investors consider important in evaluating our operating performance or ongoing business performance. Further, non-GAAP financial measures are likely to have limited value for purposes of drawing comparisons between companies because different companies may calculate similarly titled non-GAAP financial measures in different ways because non-GAAP measures are not based on any comprehensive set of accounting rules or principles.

Our earnings release contains forward-looking estimates of non-GAAP diluted earnings per share for the first quarter of our 2020 fiscal year ("Q1 2020"). We provide this non-GAAP measure to investors on a prospective basis for the same reasons (set forth above) that we provide it to investors on a historical basis. We are unable to provide a reconciliation of our forward-looking estimate of Q1 2020 GAAP diluted earnings per share to a forward-looking estimate of Q1 2020 non-GAAP diluted earnings per share because certain information needed to make a reasonable forward-looking estimate of GAAP diluted earnings per share for Q1 2020 (other than estimated share-based compensation expense of \$0.10 to \$0.14 per diluted share, estimated amortization of intangibles of \$0.05 to \$0.07 per diluted share and certain tax items of \$0.00 to \$0.05 per diluted share) is difficult to predict and estimate and is often dependent on future events that may be uncertain or outside of our control. Such events may include unanticipated changes in our GAAP effective tax rate, unanticipated one-time charges related to asset impairments (fixed assets, inventory, intangibles or goodwill), unanticipated acquisition-related expenses, unanticipated settlements, gains, losses and impairments and other unanticipated non-recurring items not reflective of ongoing operations. The probable significance of these unknown items, in the aggregate, is estimated to be in the range of \$0.00 to \$0.08 in quarterly earnings per diluted share on a GAAP basis. Our forward-looking estimates of both GAAP and non-GAAP measures of our financial performance may differ materially from our actual results and should not be relied upon as statements of fact.

[a] These charges represent expense recognized in accordance with ASC 718 - *Compensation, Stock Compensation*. For the three months ended September 27, 2019, approximately \$4.8 million, \$9.7 million and \$7.0 million were included in cost of goods sold, research and development expense and selling, general and administrative expense, respectively. For the fiscal year ended September 27, 2019, approximately \$13.0 million, \$41.6 million and \$25.5 million were included in cost of goods sold, research and development expense and selling, general and administrative expense, respectively.

For the three months ended September 28, 2018, approximately \$2.8 million, \$10.4 million and \$8.3 million were included in cost of goods sold, research and development expense and selling, general and administrative expense, respectively. For the fiscal year ended September 28, 2018, approximately \$14.4 million, \$42.6 million and \$50.8 million were included in cost of goods sold, research and development expense and selling, general and administrative expense, respectively.

[b] The acquisition-related expenses recognized during the fiscal year ended September 27, 2019, include a \$3.3 million charge primarily associated with acquisitions completed or contemplated during the period and a \$1.9 million charge to cost of goods sold related to the fair market value step-up associated with the sale of acquired inventory, partially offset by a \$3.1 million benefit for a fair value adjustment to reduce the contingent consideration accrued.

The acquisition-related expenses recognized during the three months ended September 28, 2018, include a \$3.8 million charge to general and administrative expenses primarily associated with acquisitions completed or contemplated during the period and a \$4.5 million charge to cost of goods sold related to the sale of acquired inventory, partially offset by a \$4.0 million benefit for fair value adjustments to reduce contingent considerations. The acquisition-related expenses recognized during the fiscal year ended September 28, 2018, include a \$4.7 million charge to general and administrative expenses primarily associated with acquisitions completed or contemplated during the period and a \$4.5 million charge to cost of goods sold related to the sale of acquired inventory, partially offset by an \$11.8 million benefit for fair value adjustments to reduce contingent considerations.

[c] During the three months and fiscal year ended September 27, 2019, the Company incurred \$5.9 million and \$21.1 million, respectively, in amortization of acquisition-related intangibles included in cost of goods sold and \$4.0 million and \$22.6 million, respectively, in amortization of acquisition-related intangibles included in selling, general and administrative expense.

During the three months and fiscal year ended September 28, 2018, the Company incurred \$2.3 million in amortization of acquisition-related intangibles included in cost of goods sold and \$6.4 million and \$18.4 million, respectively, in amortization of acquisition-related intangibles included in selling, general and administrative expense.

[d] During the three months and fiscal year ended September 27, 2019, the Company incurred \$12.8 million and \$83.2 million in non-recurring charges, respectively. During the three months ended September 27, 2019, the \$12.8 million in charges primarily related to losses on the disposition of assets. During the fiscal year ended September 27, 2019, the \$83.2 million in charges included \$70.4 million consisting primarily of inventory-related charges due to lower expected demand as a result of the U.S. Bureau of Industry and Security of the U.S. Department of Commerce placing Huawei Technologies Co., Ltd. and certain of its affiliates on the Bureau's Entity List.
