The section of the prospectus entitled "Selling Security Holders" is amended and restated in its entirety to read as follows:

### **Selling Security Holders**

On March 2, 2007, we issued and sold a total of \$200,000,000 aggregate principal amount of the notes in a private placement to Credit Suisse Securities (USA) LLC, which we refer to as the initial purchaser. The initial purchaser has advised us that it resold the notes, in transactions exempt from the registration requirements of the Securities Act of 1933, to "qualified institutional buyers," as defined in Rule 144A under the Securities Act of 1933, in compliance with Rule 144A. The selling security holders, which term includes their transferees, pledgees, donees and successors, may from time to time offer and sell pursuant to this prospectus any and all of the notes and the shares of our common stock issuable upon conversion of the notes. Our registration of the notes and the shares of common stock issuable upon conversion of the notes does not necessarily mean that the selling security holders will sell all or any of the notes or common stock.

The notes and our shares of common stock to be issued upon conversion of the notes are being registered pursuant to a registration rights agreement between the initial purchaser and us. In that agreement, we undertook to file a registration statement with regard to the notes and our shares of common stock issuable upon conversion of the notes and, subject to certain exceptions, to keep that registration statement effective for up to two years. The registration statement of which this prospectus is a part is intended to satisfy our obligations under that agreement.

The following table sets forth information with respect to the selling security holders and the principal amount of notes and common stock beneficially owned by each selling security holder that may be offered from time to time by each selling security holder pursuant to this prospectus. The information in the tables is based on information provided by or on behalf of the selling security holders prior to July 6, 2007, and may change over time. In particular, the selling security holders identified below may have sold, transferred or otherwise disposed of all or a portion of their notes since the date on which they provided to us information regarding their holdings in transactions exempt from the registration requirements of the Securities Act of 1933. The selling security holders may offer all, some or none of the notes or the common stock issuable upon conversion of the notes.

We have assumed for purposes of the table below that the selling security holders will sell of their notes and all of our common stock issuable upon conversion of their notes pursuant to this prospectus, and that any other shares of our common stock beneficially owned by the selling security holders will continue to be beneficially owned.

The percentage of notes outstanding beneficially owned by each selling security holder is based on \$100,000,000 aggregate principal amount of 2010 notes outstanding and \$100,000,000 aggregate principal amount of 2012 notes outstanding. The number of shares of common stock issuable upon conversion of the notes shown in the table below assumes conversion of the full amount of notes held by each selling security holder at the initial conversion rate of 105.0696 shares of common stock per \$1,000 principal amount of notes.

To our knowledge, none of the selling security holders has, or within the past three years has had, any position, office or other material relationship with us or any of our affiliates.
