Skyworks Supports Samsung's Aggressive Migration to EDGE; Helios(TM) Radio Architecture Leveraged across a Wave of Models Entering the Channel

WOBURN, Mass.--(BUSINESS WIRE)--July 17, 2006--Skyworks Solutions, Inc. (NASDAQ:SWKS), an industry leader in radio solutions and precision analog semiconductors, today announced that it is supporting Samsung's decisive move to EDGE-enabled cellular phones, powering multiple models with its Helios™ EDGE radio. Samsung, a top-tier handset manufacturer, was an early adopter of Skyworks' EDGE solution and has since incorporated the next-generation Helios™ design into its new lineup of mobile devices. Today it is ramping across nearly 20 models, including the SGH-E770 with expandable memory, the SGH-E900 tri-band fashion handset, the ultra-slim SGH-X820 model, and the SGH-S400i slider.

Skyworks' Helios™ RF subsystem is a highly integrated solution which reduces the radio frequency (RF) board space by half when compared to previous other designs, enabling the inclusion of advanced multimedia features such as MP3 players, digital cameras, Web browsing, multimedia messaging services (MMS) and video processing.

"Skyworks is delighted to be supporting Samsung through their aggressive ramp of next-generation EDGE handsets with our Helios™ radio," said Kevin D. Barber, senior vice president and general manager of Mobile Platforms for Skyworks. "Our solution delivers superior RF functionality and an unprecedented level of radio integration, allowing for compact designs and robust performance even under extreme conditions."

Helios™ also eliminates the need for additional factory calibration, offering handset OEMs simplified testing processes and ease with high-volume manufacturing. Other top handset manufacturers who have adopted Skyworks' Helios™-based architectures include LG Electronics and Motorola.

About Skyworks

Skyworks Solutions, Inc. is an industry leader in radio solutions and precision analog semiconductors servicing a diversified set of mobile communications applications. The company's power amplifiers, front-end modules and direct conversion transceivers are at the heart of many of today's leading-edge multimedia handsets, cellular base stations and wireless networking platforms. Skyworks also offers a portfolio of highly innovative linear products, supporting a diverse set of automotive, broadband, industrial and medical customers.

Headquartered in Woburn, Mass., Skyworks is worldwide with engineering, manufacturing, sales and service facilities throughout Asia, Europe and North America. For more information please visit www.skyworksinc.com.

Safe Harbor Statement

This news release includes "forward-looking statements" intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. These forward-looking statements include information relating to future results of Skyworks (including certain projections and business trends). Forward-looking statements can often be identified by words such as "anticipates," "expects," "intends," "believes," "plans," "may," "will," "continue," similar expressions, and variations or negatives of these words. All such statements are subject to certain risks and uncertainties that could cause actual results to differ materially and adversely from those projected, and may affect our future operating results, financial position and cash flows.

These risks and uncertainties include, but are not limited to: global economic and market conditions, such as the cyclical nature of the semiconductor industry and the markets addressed by the company's and its customers' products; demand for and market acceptance of new and existing products; the ability to develop, manufacture and market innovative products in a rapidly changing technological environment; the ability to compete with products and prices in an intensely competitive industry; product obsolescence; losses or curtailments of purchases from key customers or the timing of customer inventory adjustments; the timing of new product introductions; the availability and extent of utilization of raw materials, critical manufacturing equipment and manufacturing capacity; pricing pressures and other competitive factors; changes in product mix; fluctuations in manufacturing yields; the ability to continue to grow and maintain an intellectual property portfolio and obtain needed licenses from third parties; the ability to attract and retain qualified personnel; labor relations of the company, its customers and suppliers; economic, social and political conditions in the countries in which Skyworks, its customers or its suppliers operate, including security and health risks, possible disruptions in transportation networks and fluctuations in foreign currency exchange rates; and the uncertainties of litigation, as well as other risks and uncertainties, including but not limited to

those detailed from time to time in the company's filings with the Securities and Exchange Commission.

These forward-looking statements are made only as of the date hereof, and the company undertakes no obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise.
